## **PUBLIC NOTICE**

**April 16, 2014**

### **Subject: Public Service Commission of Utah Determinations Required by S.B. 208.**

On March 25, 2014, Governor Herbert signed Senate Bill 208, with an effective date of May 13, 2014. S.B. 208 amends Utah Code Ann. §§ 54-15-102, 54-15-104 and 54-15-106 and enacts Utah Code Ann. § 54-15-105.1 as follows:

*The governing authority shall:*

*(1) determine, after appropriate notice and opportunity for public comment, whether costs that the electrical corporation or other customers will incur from a net metering program will exceed the benefits of the net metering program, or whether the benefits of the net metering program will exceed the costs; and*

*(2) determine a just and reasonable charge, credit, or ratemaking structure, including new or existing tariffs, in light of the costs and benefits.*

The term “governing authority” in the context above is defined to mean the Commission. See Utah Code Ann. § 54-15-102(8)(b). The Commission’s determinations referenced in subsections (1) and (2) of Utah Code Ann. § 54-15-105.1 will be accomplished in the context of PacifiCorp, dba Rocky Mountain Power’s (“PacifiCorp”) general rate case in Docket No. 13-035-184. The rate case docket can be viewed on the Commission’s website at [www.psc.utah.gov](http://www.psc.utah.gov). In that docket, PacifiCorp is proposing to implement a net metering facilities charge of \$4.25 per month for residential net metering customers.

The Commission invites public comment on whether costs that PacifiCorp or other customers will incur from PacifiCorp’s net metering program will exceed the benefits of the net metering program, or whether the benefits of the net metering program will exceed the costs. Consistent with the Commission’s January 22, 2014, scheduling order, parties that have intervened in Docket No. 13-035-184 may address this topic as part of their written direct testimony on cost-of-service issues, due May 22, 2014.
