Re: Docket No. 15-999-01, In the Matter of the Miscellaneous Correspondence and Reports Regarding Electric Utility Services; 2015. Review and audit of PacifiCorp's 2015 Blue Sky Program.

Dear Mr. Parker,

On October 21, 2015, the Division of Public Utilities ("Division") filed a memorandum, review and audit of PacifiCorp's, dba Rocky Mountain Power's, 2014 Blue Sky Program ("Program") in Docket No. 15-999-01 captioned above. The Division states the intent of the audit was to review the revenues and expenses of the Program as reported by PacifiCorp for the year ended December 2014. The Division states the purpose of the audit was also to test compliance of the Program to the Utah Public Service Commission ("Commission") Orders and to Electric Service Schedule No. 70, Renewable Energy Rider – Optional and to Electric Service Schedule No. 72, Renewable Energy Rider – Optional, Bulk Purchase Option.

The Division concludes PacifiCorp is in general compliance with the rules and regulations set forth by the Commission. Further, the Division concludes that it appears the program follows good business practices and PacifiCorp is using accounting and controls that are adequate and practical.

The Commission has reviewed the Division's memorandum, audit and report and appreciates the communication. The Commission supports the Division's efforts to audit PacifiCorp's Program to ensure it is operated in compliance with regulatory and reporting requirements.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
