| 5f. Latitude:  | 40.63016   |  |                                       |
| Longitude:   | -111.807   |  |                                       |
| 6. National Response Center Report Number:   | 1192313  |  |                                       |
| 7. Local time (24-hr clock) and date of initial telephonic report to the National Response Center:   | 10/04/2017 16:09                                 |  |                                       |
| 8. Incident resulted from:   | Unintentional relea                              | se of gas                                      |                                       |
| 9. Gas released:   | Natural Gas                                      |  |                                       |
| - Other Gas Released Name:<br>10. Estimated volume of gas released - Thousand Cubic Feet (MCF):  | 545.000  |  |                                       |
| 11. Were there fatalities?   | No 545.000                                       |  |                                       |
| - If Yes, specify the number in each category:   | 110  |  |                                       |
| 11a. Operator employees  |  |  |                                       |
| 11b. Contractor employees working for the Operator   |  |  |                                       |
| 11c. Non-Operator emergency responders<br>11d. Workers working on the right-of-way, but NOT  |  |  |                                       |
| associated with this Operator  |  |  |                                       |
| 11e. General public<br>11f. Total fatalities (sum of above)  |  |  |                                       |
| 12. Were there injuries requiring inpatient hospitalization?   | No   |  |                                       |
| - If Yes, specify the number in each category:   | 110  |  |                                       |
| 12a. Operator employees  |  |  |                                       |
| 12b. Contractor employees working for the Operator   |  |  |                                       |
| 12c. Non-Operator emergency responders   |  |  |                                       |
| 12d. Workers working on the right-of-way, but NOT associated with this Operator  |  |  |                                       |
| 12e. General public  |  |  |                                       |
| 12f. Total injuries (sum of above)   |  |  |                                       |
| 13. Was the pipeline/facility shut down due to the incident?   | Yes  |  |                                       |
| - If No, Explain:  |  |  |                                       |
| - If Yes, complete Questions 13a and 13b: (use local time, 24-hr clock)  |  |  |                                       |

Form PHMSA F 7100.1

| 13a. Local time and date of shutdown:  | 10/04/2017 16:03   |
|--|--|
| 13b. Local time pipeline/facility restarted:   | 10/27/2017 14:00   |
| <ul> <li>Still shut down? (* Supplemental Report Required)</li> </ul>  |  |
| 14. Did the gas ignite?  | Yes  |
| 15. Did the gas explode?   | No   |
| 16. Number of general public evacuated:  | 0  |
| 17. Time sequence (use local time, 24-hour clock):   |  |
| 17a. Local time operator identified Incident - effective 10-2014, "Incident" changed to "failure"  | 10/04/2017 16:06   |
| 17b. Local time operator resources arrived on site:  | 10/04/2017 15:15   |
| PART B - ADDITIONAL LOCATION INFORMATION   |  |
| 1. Was the Incident on Federal land?   | No   |
| 2. Location of Incident  | Utility Right-of-way / Easement  |
| 3. Area of Incident:   | Underground  |
| Specify:   | Exposed due to excavation  |
| If Other, Describe:  |  |
| Depth of Cover:  | Unknown  |
|  | No   |
| 4. Did Incident occur in a crossing?<br>- If Yes, specify type below:  |  |
|  |  |
| - If Bridge crossing –   |  |
| Cased/ Uncased:  |  |
| - If Railroad crossing –   |  |
| Cased/ Uncased/ Bored/drilled  |  |
| - If Road crossing –   |  |
| Cased/ Uncased/ Bored/drilled  |  |
| - If Water crossing –  |  |
| Cased/ Uncased   |  |
|  |  |
| Name of body of water (If commonly known):<br>Approx. water depth (ft):  |  |
| PART C - ADDITIONAL FACILITY INFORMATION   |  |
| <ol> <li>Indicate the type of pipeline system:</li> </ol>  | Investor Owned   |
| I. Indicate the type of pipeline system:     - If Other, specify:  | Investor Owned   |

| PART D - ADDITIONAL CONSEQUENCE INFORMATION   |   |
|---|---|
| 1. Class Location of Incident :   | Class 3 Location  |
| 2. Estimated Property Damage :  |   |
| 2a. Estimated cost of public and non-Operator private<br>property damage paid/reimbursed by the Operator – effective 6-2011,<br>"paid/reimbursed by the Operator" removed         | \$ 300,000  |
| Estimated cost of gas released – effective 6-2011, moved to item 2f   |   |
| 2b. Estimated cost of Operator's property damage & repairs  | \$ 12,512   |
| 2c. Estimated cost of Operator's emergency response   | \$0   |
| 2d. Estimated other costs   | \$0   |
| - Describe:   |   |
| 2e. Property damage subtotal (sum of above)   | \$ 312,512  |
| Cost of Gas Released  |   |
| 2f. Estimated cost of gas released  | \$ 2,538  |
| Total of all costs  | \$ 315,050  |
| 3. Estimated number of customers out of service:  | 1   |
| 3a. Commercial entities_  | 0   |
| 3b. Industrial entities   | 0   |
| 3c. Residences  | 0   |
| PART E - ADDITIONAL OPERATING INFORMATION   |   |
| 1. Estimated pressure at the point and time of the Incident (psig):   | 45.00   |
| 2. Normal operating pressure at the point and time of the Incident (psig):  | 45.00   |
| 3. Maximum Allowable Operating Pressure (MAOP) at the point and time of the Incident (psig):  | 60.00   |
| 4. Describe the pressure on the system relating to the Incident:  | Pressure did not exceed MAOP                                      |
| 5. Was a Supervisory Control and Data Acquisition (SCADA) based system in   | No  |
| place on the pipeline or facility involved in the Incident?   |   |
| - If Yes:   |   |
| 5a. Was it operating at the time of the Incident?   |   |
| 5b. Was it fully functional at the time of the Incident?  |   |
| 5c. Did SCADA-based information (such as alarm(s), alert(s),<br>event(s), and/or volume or pack calculations) assist with the<br>detection of the Incident?                       |   |
| 5d. Did SCADA-based information (such as alarm(s), alert(s),<br>event(s), and/or volume calculations) assist with the confirmation of<br>the Incident?                            |   |
| 6. How was the Incident initially identified for the Operator?  | Notification from Emergency Responder                             |
| - If Other, Specify:  |   |
| 6a. If "Controller", "Local Operating Personnel, including<br>contractors", "Air Patrol", or "Ground Patrol by Operator or its<br>contractor" is selected in Question 6, specify. |   |
| 7. Was an investigation initiated into whether or not the controller(s) or control  | No, the facility was not monitored by a controller(s) at the time |
| room issues were the cause of or a contributing factor to the Incident?   | of the Incident   |
| <ul> <li>If "No, the operator did not find that an investigation of the controller(s)<br/>actions or control room issues was necessary due to:"</li> </ul>                        |   |
| (provide an explanation for why the operator did not investigate)   |   |
| - If Yes, Specify investigation result(s) (select all that apply):  |   |
| <ul> <li>Investigation reviewed work schedule rotations, continuous hours</li> </ul>  |   |
| of service (while working for the Operator), and other factors associated with fatigue  |   |
| - Investigation did NOT review work schedule rotations, continuous  |   |
| hours of service (while working for the Operator), and other factors associated with fatigue  |   |
| - Provide an explanation for why not:   |   |
| <ul> <li>Investigation identified no control room issues</li> </ul>   |   |
| <ul> <li>Investigation identified no controller issues</li> </ul>   |   |
| - Investigation identified incorrect controller action or controller error  |   |
| - Investigation identified that fatigue may have affected the   |   |
| controller(s) involved or impacted the involved controller(s) response  |   |
| <ul> <li>Investigation identified incorrect procedures</li> </ul>   |   |
| <ul> <li>Investigation identified incorrect control room equipment operation</li> </ul>   |   |
| - Investigation identified maintenance activities that affected control   |   |
| room operations, procedures, and/or controller response   |   |
| Investigation identified areas other than those above   |   |
| Describe:   |   |
|   |   |

| PART F - DRUG & ALCOHOL TESTING INFORMATION   |                        |  |
|---|------------------------|--|
| 1. As a result of this Incident, were any Operator employees tested under the post-accident drug and alcohol testing requirements of DOT's Drug & Alcohol Testing regulations?                  | No                     |  |
| - If Yes:   |                        |  |
| 1a. How many were tested:   |                        |  |
| 1b. How many failed:  |                        |  |
| 2. As a result of this Incident, were any Operator contractor employees tested<br>under the post-accident drug and alcohol testing requirements of DOT's Drug &<br>Alcohol Testing regulations? | No                     |  |
| - If Yes:   |                        |  |
| 2a. How many were tested:<br>2b. How many failed:   |                        |  |
| PART G - CAUSE INFORMATION  |                        |  |
| Select only one box from PART G in shaded column on left representing the App<br>right. Describe secondary, contributing, or root causes of the Incident in the narra                           |                        |  |
| Apparent Cause:   | G3 - Excavation Damage |  |
| G1 - Corrosion Failure – only one sub-cause can be picked from shaded let   | ft-hand column         |  |
| Corrosion Failure Sub-Cause:  |                        |  |
| - If External Corrosion:  |                        |  |
| 1. Results of visual examination:   |                        |  |
| - If Other, Specify:  |                        |  |
| 2. Type of corrosion:   |                        |  |
| - Galvanic  |                        |  |
| - Atmospheric   |                        |  |
| - Stray Current   |                        |  |
| - Microbiological<br>- Selective Seam   |                        |  |
| - Selective Seam  |                        |  |
| - Other, Describe:  |                        |  |
| 3. The type(s) of corrosion selected in Question 2 is based on the following:   |                        |  |
| - Field examination   |                        |  |
| - Determined by metallurgical analysis  |                        |  |
| - Other   |                        |  |
| - If Other, Describe:   |                        |  |
| 4. Was the failed item buried under the ground?   |                        |  |
| - If Yes:   |                        |  |
| 4a. Was failed item considered to be under cathodic protection at the   |                        |  |
| time of the incident?   |                        |  |
| - If Yes, Year protection started:  |                        |  |
| 4b. Was shielding, tenting, or disbonding of coating evident at the point of the incident?  |                        |  |
| 4c. Has one or more Cathodic Protection Survey been conducted at the point of the incident?   |                        |  |
| If "Yes, CP Annual Survey" – Most recent year conducted:  |                        |  |
| If "Yes, Close Interval Survey" – Most recent year conducted:   |                        |  |
| If "Yes, Other CP Survey" – Most recent year conducted:   |                        |  |
| - If No:  |                        |  |
| 4d. Was the failed item externally coated or painted?   |                        |  |
| 5. Was there observable damage to the coating or paint in the vicinity of the corrosion?  |                        |  |
| 6. Pipeline coating type, if steel pipe is involved:  |                        |  |
| - If Other, Describe:   |                        |  |
| 7. Results of visual examination:   |                        |  |
| - If Other, Describe:   |                        |  |
| 8. Cause of corrosion (select all that apply):  | 1                      |  |
| - Corrosive Commodity   |                        |  |
| - Water drop-out/Acid   |                        |  |
| - Microbiological   |                        |  |
| - Erosion   |                        |  |
| - Other   |                        |  |

| - If Other, Specify:  |  |
|---|--|
| 9. The cause(s) of corrosion selected in Question 8 is based on the following: (s   | elect all that apply):   |
| - Field examination   |  |
| - Determined by metallurgical analysis  |  |
| - Other   |  |
| - If Other, Describe:   |  |
| 10. Location of corrosion (select all that apply):  |  |
| - Low point in pipe<br>- Elbow  |  |
| - Elbow<br>- Drop-out   |  |
| - Other   |  |
| - If Other. Describe:   |  |
| 11. Was the gas/fluid treated with corrosion inhibitor or biocides?   |  |
| 12. Were any liquids found in the distribution system where the Incident  |  |
| occurred?   |  |
| Complete the following if any Corrosion Failure sub-cause is selected AND the Question 2) is Main, Service, or Service Riser. | e "Part of system involved in incident" (from PART C,          |
| 13. Date of the most recent Leak Survey conducted   |  |
| 14. Has one or more pressure test been conducted since original construction at the point of the Incident?                    |  |
| - If Yes:   |  |
| Most recent year tested:  |  |
| Test pressure:  |  |
| G2 – Natural Force Damage – only one sub-cause can be picked from sha   | ded left-handed column   |
| Natural Force Damage – Sub-Cause:   |  |
| - If Earth Movement, NOT due to Heavy Rains/Floods:   |  |
| 1. Specify:   |  |
| - If Other, Specify:  |  |
| - If Heavy Rains/Floods:  | 1  |
| 2. Specify:   |  |
| - If Other, Specify:  |  |
| - If Lightning:   | I  |
| 3. Specify:   |  |
| - If Temperature:   |  |
| 4. Specify:   |  |
| - If Other, Specify:  |  |
| - If Other Natural Force Damage:  | 1  |
| 5. Describe:  |  |
| Complete the following if any Natural Force Damage sub-cause is selected.   |  |
| 6. Were the natural forces causing the Incident generated in conjunction with an extreme weather event?                       |  |
| 6.a If Yes, specify (select all that apply):  |  |
| - Hurricane   |  |
| - Tropical Storm  |  |
| - Tornado   |  |
| - Other   |  |
| - If Other, Specify:<br>G3 – Excavation Damage – only one sub-cause can be picked from shaded                                 | h left-hand column   |
|   |  |
| Excavation Damage – Sub-Cause:  | Excavation Damage by Third Party                               |
| - If Previous Damage due to Excavation Activity: Complete the following O<br>Question 2) is Main, Service, or Service Riser.  | NLY IF the "Part of system involved in Incident" (from Part C, |
| 1. Date of the most recent Leak Survey conducted  |  |
| 2. Has one or more pressure test been conducted since original construction at the point of the Incident?                     |  |
| - If Yes:<br>Most recent year tested:   |  |
| Test pressure:  |  |
| Complete the following if Excavation Damage by Third Party is selected.   |  |
| 3. Did the operator get prior notification of the excavation activity?  | Yes  |
| 3a. If Yes, Notification received from: (select all that apply):  | Vec  |
| - One-Call System   | Yes  |

|  | 1   |
|--|---|
| - Excavator<br>- Contractor  |   |
| - Landowner  |   |
| Complete the following mandatory CGA-DIRT Program questions if any Exca  | vation Damage sub-cause is selected.                              |
| 4. Do you want PHMSA to upload the following information to CGA-DIRT (<br><u>www.cga-dirt.com</u> )?   | No  |
| 5. Right-of-Way where event occurred (select all that apply):  |   |
| - Public   | Yes   |
| - If Public, Specify:  | City Street   |
| - Private  |   |
| - If Private, Specify:   |   |
| - Pipeline Property/Easement     - Power/Transmission Line   |   |
| - Railroad   |   |
| - Dedicated Public Utility Easement  |   |
| - Federal Land   |   |
| - Data not collected   |   |
| - Unknown/Other  |   |
| 6. Type of excavator :   | Contractor  |
| 7. Type of excavation equipment :  | Backhoe/Trackhoe  |
| Type of work performed :     Was the One-Call Center notified?   | Vater Yes   |
| 9. Was the One-Call Center hotned?<br>9a. If Yes, specify ticket number:   | 72680035  |
| 9b. If this is a State where more than a single One-Call Center exists, list   |   |
| the name of the One-Call Center notified:  |   |
| 10. Type of Locator:   | Contract Locator  |
| 11. Were facility locate marks visible in the area of excavation?  | Yes   |
| 12. Were facilities marked correctly?  | Yes   |
| 13. Did the damage cause an interruption in service?   | No  |
| 13a. If Yes, specify duration of the interruption:   |   |
| 14. Description of the CGA-DIRT Root Cause (select only the one predominant  | first level CGA-DIRT Root Cause and then, where available as a    |
| choice, the one predominant second level CGA-DIRT Root Cause as well):   | Everyotian Drastiana Nat Sufficient                               |
| - Root Cause Description:     - If One-Call Notification Practices Not Sufficient, specify:  | Excavation Practices Not Sufficient                               |
| If Locating Practices Not Sufficient, specify:     If Locating Practices Not Sufficient, specify:  |   |
| - If Excavation Practices Not Sufficient, specify:   | Failure to use hand tools where required                          |
| - If Other/None of the Above, explain:   |   |
| G4 - Other Outside Force Damage - only one sub-cause can be selected   | from the shaded left-hand column                                  |
| Other Outside Force Damage – Sub-Cause:  |   |
| - If Damage by Car, Truck, or Other Motorized Vehicle/Equipment NOT Eng  | aged in Excavation:   |
| 1. Vehicle/Equipment operated by:  |   |
| - If Damage by Boats, Barges, Drilling Rigs, or Other Maritime Equipment of  | or Vessels Set Adrift or Which Have Otherwise Lost Their          |
| Mooring:   |   |
| 2. Select one or more of the following IF an extreme weather event was a factor  | :   |
| - Hurricane<br>- Tropical Storm  |   |
| - Tropical Storm<br>- Tornado  | 1   |
|  |   |
| - Heavy Rains/Flood  |   |
| - Heavy Rains/Flood<br>- Other   |   |
| - Other  |   |
|  | following ONLY IF the "Part of system involved in Incident" (from |

| - If Threaded Connection Failure:  |                      |  |
|  |                      |  |
| 2. Specify:<br>- If Other, Specify:  |                      |  |
|  |                      |  |
| - If Non-threaded Connection Failure:  |                      |  |
| 3. Specify:  |                      |  |
| - If Other, Specify:   |                      |  |
| - If Valve:  |                      |  |
| 4. Specify:  |                      |  |
| - If Other, Specify:   |                      |  |
| 4a. Valve type:  |                      |  |
| 4b. Manufactured by:   |                      |  |
| 4c. Year manufactured:   |                      |  |
| - If Other Equipment Failure:  |                      |  |
| 5. Describe:   |                      |  |
| G7 - Incorrect Operation - only one sub-cause can be selected from the shaded left-hand column |                      |  |
| Incorrect Operation Sub-Cause:   |                      |  |
| - If Other Incorrect Operation:  |                      |  |
| 1. Describe:   |                      |  |

| Complete the following if any Incorrect Operation sub-cause is selected.   |                                    |  |
|--|------------------------------------|--|
| 2. Was this Incident related to: (select all that apply)   |                                    |  |
| - Inadequate procedure   |                                    |  |
| - No procedure established   |                                    |  |
| - Failure to follow procedure  |                                    |  |
| - Other  |                                    |  |
| - If Other, Describe:  |                                    |  |
| 3. What category type was the activity that caused the Incident:   |                                    |  |
| 4. Was the task(s) that led to the Incident identified as a covered task in your<br>Operator Qualification Program?  |                                    |  |
| 4a. If Yes, were the individuals performing the task(s) qualified for the task(s)?   |                                    |  |
| G8 - Other Incident Cause - only one sub-cause can be selected from the shaded left-hand column  |                                    |  |
| Other Incident Cause – Sub-Cause:  |                                    |  |
| - If Miscellaneous:  |                                    |  |
| 1. Describe:   |                                    |  |
| - If Unknown:  |                                    |  |
| 2. Specify:  |                                    |  |
| PART H - NARRATIVE DESCRIPTION OF THE INCIDENT   |                                    |  |
| On October 4, 2017 Dominion Energy Utah (DEU) was notified by phone at 14:55 that a 3rd party excavator had struck a natural gas pipeline while excavating causing gas to escape and ignite. Minor injuries not requiring medical attention were sustained by the equipment operator and the excavating equipment was damaged. DEU isolated the damaged pipeline by squeezing off the line in 2 locations. The line was isolated at 16:03. In addition to DEU, the local fire and health department were contacted and dispatched to the site. Pursuant to CFR 49 Part 191.5 DEU contacted the National Response Center upon discovery of the reportable incident due to cost of property damage exceeding \$50,000. The Utah Division of Public Utilities- Pipeline Safety was also contacted and reported to the site. |                                    |  |
