Dear Information Resources Manager:

I hope this finds you doing well. Per DOT Part 192.805, this communication is to notify PHMSA that Kinder Morgan (OP ID 18092) has added a new task, 05.02.02- Maintain Cathodic Test Leads, to the company's Natural Gas covered task list due to further review of our existing task list and material. While this task was part of an existing task, SME reviews determined a separate task would better align with industry. This task will be effective as of 11/15/19.

This change will affect all Natural Gas pipelines operated by Kinder Morgan subject to the OQ program. These assets are present in all PHMSA regions and are as follows:
