DADT II NADDATIVE DESCRIPTION OF THE INCIDENT		

## PART H - NARRATIVE DESCRIPTION OF THE INCIDENT

On July 2, 2019 Dominion Energy Utah (DEU) was notified of a house fire at 2071 Adams Ave., Ogden, Utah. DEU sent a crew to the site. Upon arrival our crew secured the service line to the residence. When the site was clear our technicians performed standard investigation procedures and found no indications of gas underground. The service line was also tested and passed. At the time of the fire and this report, the investigators did not yet determine the cause of the fire. The meter set was bagged for evidence.

Based on DEU facilities being tested successfully and no gas found during the investigation, DEU is coordinating with Utah Pipeline Safety to rescind the incident report based on the lack of evidence that natural gas was involved in the house fire and therefore did not meet incident reporting requirements.
