No. 5, effective July 1, 2020.

Furthermore, Central Utah Telephone, Inc. will continue to provide common carrier wireline broadband Internet access transmission service on a permissive detariffed basis. The discontinuance of Company's offering of broadband Internet access transmission service under tariff, and the continued provision of such service on a detariffed basis, will apply to the entirety of the Company's study area (SAC: 502277) in the state of Utah.

The Company currently has only one customer for its broadband Internet access transmission service. That customer is the Company's own non-regulated Internet service provider (ISP) affiliate. The Company's affiliated ISP purchases broadband Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. On April 20, 2020, Central Utah Telephone, Inc. furnished its affiliated ISP with the attached memorandum, which notifies the ISP of the Company's plan to discontinue its provisioning of broadband Internet access transmission service under tariff and to continue providing such service on a detariffed basis.
