The attachment that you sent had an error in it which my computer could not fix to make the document readable. Julie sent me a copy of the report and order on the 26th. If your attachment provides different information, then please send me another copy.

Mr. Hansen,
The Committee of Consumer Services and Division of Public Utilities realized that you were probably unaware and given no formal notice of the November 22, 2004 hearing on UBTA's application. In addition, UBTA apparently did not contact you about the proposals to resolve the case and the ultimate resolution. Part of the confusion was due to the fact that until the public hearing and then the order granting your intervention, none of us knew that you wanted to participate as a party.

The case has been settled and a stipulation presented to the Commission for its review and an order. I am attaching what I believe to be the final draft that was presented. There may be a few minor non-substantive changes. Please call me when you have reviewed it.

Paul H. Proctor
Attorney for Committee of Consumer Services
