

Utah

Docket No. 06-049-40

Joint CLECs 01-025

INTERVENOR: Covad Comm. Company, Eschelon Telecom of Utah, Inc., Integra Telecom of Utah, Inc., McLeodUSA Telecom. Services, Inc., and XO Communications Services, Inc.

REQUEST NO: 025

[Million 7:5] Please confirm that EEL circuits, where Qwest historically did not change the circuit ID, are being managed properly in the PID/PAP in Utah.

RESPONSE:

Yes, EEL circuits are being managed properly in the PID/PAP reporting in Utah. However, as discussed in response to data request 01-022, because the circuit IDs do not properly reflect the products to which they are assigned, Qwest has difficulty tracking the EEL circuits in its systems, and therefore must manually track those circuits in order to report them properly. For that reason, effective April 8, 2005, Qwest has required changes to the circuit ID on all new requests, conversions and change orders on existing EEL/LMC circuits.

Respondent: Terri Million
