 TARIFF FORMAT SHEET

1. Page Numbering. Page numbers appear in the upper-right corner of the page. Pages are numbered sequentially. New pages may occasionally be added to the tariff. When a new page is added, the page appears as a decimal. For example, a new page added between pages 34 and 35 would be 34.1.
2. Page Revisions Numbers. Page Revision Numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page revision on file with the Utah Public Service Commission ("PSC"). For example, the fourth revised Page 34 cancels the third revised Page 34. Because of deferrals, notice periods, etc., the most current page number on file with the PSC is not always the tariff page in effect. Business Customers should consult with check sheet for the page currently in effect.
3. Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
 - 1.
 - 1.1.
 - 1.1.1.
 - 1.1.1.A.
 - 1.1.1.A.1.
 - 1.1.A.1.(a)
 - 1.1.1.A.1.(a)(I)
 - 1.1.1.A.1.(a)(I)(i)
 - 1.1.1.A.1.(a)(I)(i)(1)
4. Check List of Effective Pages. When a tariff filing is made with the PSC, an updated Check List of Effective Pages ("Check List") accompanies the tariff filing. The Check List lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check List is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the Check List if these are the only changes made to it (i.e., the format, etc.). Customers should refer to the latest Check List to find out if a particular page is the most current page on file with the PSC.
5. Symbols Used in This Tariff.

2.6. Application for Service

- 2.6.1. Applicants wishing to obtain service must initiate a service order which may include the Customer's authorization for Sage to instruct other carriers and vendors and the appropriate LEC to provide certain services on the Customer's behalf. Sage will obtain the proper authorization from the Customer where necessary, pursuant to PSC regulations.
- 2.6.2. SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.7. Establishing Credit, Deposits and Advance Payments

2.7.1. Credit Requirement

2.7.1.A.. Sage may require an applicant for service to satisfactorily establish credit, but such establishment of credit shall not relieve the end-user from complying with Sage's policy regarding the prompt payment of bills.

2.7.1.B. For the purposes of this rule, "applicant" is to be defined as a person who applies for service for the first time or reapplies at a new or existing location after a previous discontinuance of service; "customer" is defined as someone who is currently receiving service.

2.7.2. Reestablishment of Credit

Any applicant who previously has been an end-user of Sage and whose service has been discontinued for nonpayment of bills shall be required, before service is rendered, to pay all amounts due Sage or execute a deferred payment agreement.

2.7.3. Deposits and Interest

2.7.3.A. To safeguard its interest, the Company may require the Customer to make a deposit to be held as a guarantee for the payment of charges in accordance with the PSC's rules. A deposit may be required if the Customer's financial condition is not acceptable to the Company or is not a matter of general knowledge. A deposit does not relieve the Customer of the responsibility for the prompt payment of bill on presentation. The deposit will not exceed an amount equal to two regular billing periods. A deposit may be required in addition to an advance payment.

2.7.3.B. The amount of the deposit shall not exceed an amount equal to two (2) months local exchange charges and/or two (2) months toll charges determined by actual or anticipated usage. Where local exchange charges are billed in advance, the deposit shall include only one (1) month's such charges.

2.7.3.C. A present end-user may be required to post a deposit as a condition of continued service if undisputed charges have become delinquent, with delinquent meaning a payment not received on or before the due date as posted on the bill, in two (2) out of the last twelve (12) billing periods or if the end-user has had service disconnected during the last twelve (12) months or has presented a check to Sage that was subsequently dishonored.

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.7. Establishing Credit, Deposits and Advance Payments (cont'd)

2.7.3. Deposits and Interest (cont'd)

2.7.3.D. Interest on cash deposits shall be paid by Sage at no less than the rate calculated pursuant to PSC rules or, in the absence of applicable rules, the interest rate shall be established the first day of January of each year to equal the average of the weekly percent annual yields of one (1) year U. S. Treasury Securities for September, October and November of the preceding year. The interest rate shall be rounded to the nearest basis point.

2.7.3.E. Sage shall provide payment of accrued interest for all end-users annually by negotiable instrument or by credit against current billing. The deposit shall cease to draw interest on the date it is returned or credited to the end-user's account.

2.7.3.F. The amount of the deposit, with accrued interest, shall be applied to any unpaid charges at the time of a discontinuance of services. The balance, if any, shall be returned to the end-user within thirty (30) days after settlement of the consumer's account, either in person or by mailing it to the end-user's last known address.

2.7.3.G. Sage will keep records to show the name, account number, and address of each depositor, the amount and date of the deposit and each transaction concerning the deposit. Sage shall issue a receipt of deposit to each applicant from whom a deposit is received and shall provide means whereby a depositor may establish claim if the receipt is lost. Such records shall be retained for two (2) years after deposit and/or interest is refunded or applied. The deposit made by the end-user with Sage at the time of application for telephone service shall not constitute an advance payment to cover service bills, but for all purposes it is to be considered as security for payment of monthly bills or other proper charges.

2.7.4 Advance Payments

To safeguard its interest, the Company may require a Customer to make an advance payment before services and facilities are furnished. The advance payment will not exceed an amount equal to two month's service charges and/or the service connection and/or equipment charges plus applicable taxes, fee, and surcharges which may be applicable as well as any nonrecurring charges for any required special construction. The amount of the first months' service is credited to the Customer's account on the first bill rendered. The Company may not require advance payments for usage. An advance payment may be required in addition to a deposit.

- 2.8.2. For billing of monthly charges, service is considered to be established upon the day in which Sage notifies the Customer of installation and testing of the Customer's services.
- 2.8.3. Except where otherwise specified, usage charges will be billed monthly in arrears. Customer will be billed for all usage accrued beginning immediately upon access to the service. Customers will be billed for usage occurring during their specific 30-day billing cycle, which for purposes of computing charges shall be considered a month. The rates charged to a Customer will be the rates in effect on the first day of the Customer's billing cycle.
- 2.8.4. Monthly charges for all access service components, provided hereunder, are billed in advance of service and reflect the rates in effect as of the date of the invoice. A Customer's first invoice may contain charges from previous periods for service provided from the date of installation through the current invoice period.
- 2.8.5. Bills are due and payable as specified on the bill. Bills may be paid by mail or in person at the business office of Sage or an agency authorized to receive such payment. All charges for service are payable only in United States currency. Payment may be made by cash, check, money order, cashier's check, or certain major credit cards. Customer payments are considered prompt when received by Sage or its agent by the due date on the bill. Amounts not paid within twenty (20) days after the mail date of invoice will be considered past due. If Sage becomes concerned at any time about the ability of a Customer to pay its bills, Sage may require that the Customer pay its bills and make such payments in cash or the equivalent of cash.
- 2.8.6. If any portion of the payment is not received by Sage by the due date, or if any portion of the payment is received by Sage in funds that are not immediately available upon presentment, then a late payment penalty may be assessed. Charges greater than \$50.00 left unpaid after the due date are subject to a late payment charge of \$6.00. If the payment due date falls on a Saturday, Sunday, legal holiday or other day when the offices of the Company are closed, the date for acceptance of payments prior to assessment of any late payment fees shall be extended through to the next business day. The late payment penalty shall apply to all customers.

In the case of a billing dispute between the Customer and Sage that cannot be settled to their mutual satisfaction, the undisputed portion and subsequent bills must be paid on a timely basis, or the service may be subject to disconnection. The Customer may request an in-depth investigation into the disputed amount and a review by a Sage manager. During the period that the disputed amount is under investigation, Sage shall not pursue any collection procedures or assess late fees with regard to the disputed amount. The Customer shall be required to pay the undisputed part of the bill, and if not paid, Sage may discontinue service. In the event the dispute is not resolved, Sage shall inform the customer that the customer has the option to pursue the matter with the PSC.
- 2.8.8. The Customer is responsible to pay Sage for all toll calls or other third party charges resulting from the origination of calls to points outside the local exchange and for charges or calls billed to the Customer's number.

- 2.8.10. If service is suspended/disconnected by Sage in accordance with the provisions of the Tariff and later restored, restoration of service will be subject to all applicable installation charges. In addition to the installation charges, the customer will be required to pay all charges due, including the charges for the period of denial. For nonusage sensitive charges, Customer will be liable for the entire monthly recurring charge during the month Customer's service terminates.
- 2.8.11. When circumstances prevent customers from paying their invoices in full, Sage may make special accommodations to assist customers by setting up a regular payment plan. Payment plans are only set up at the request of the customer. Payment plans are intended to function as a short-term solution and will be reviewed and approved on an individual case basis.

The customer will not be provided the results of the trace (i.e., the telephone number traced). Such call detail may be provided only to law enforcement authorities upon proper request.

For further action to be taken, the customer is required to contact Sage Telecom via the telephone number provided in the Call Trace announcement.

At its opinion or upon receipt of proper request from a law enforcement agency, Sage will set up a temporary tracing arrangement using Call Trace or manual trap and trace where Call trace is not available at no charge to the customer when in the judgment of Sage or law enforcement agency, the unwanted call(s) present a serious threat of bodily harm or destruction of property.

4. Call Waiting – Alerts a customer who is using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call. Call Waiting is automatically reactivated for the next originating or terminating call.
5. Priority Call – Provides the customer with a distinctive ring or distinctive Call Waiting tone (if the customer has subscribed to Call Waiting and Priority Call), when the customer is called from pre-selected telephone numbers. The customer can construct or modify a telephone number screening list. Priority Call will screen incoming calls against the customer's list and provide the distinctive ring for telephone numbers on the list.
6. Speed Calling – Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. Residential customers may store up to eight (8) telephone numbers. Business customers may store up to thirty (30) telephone numbers.
7. Three-Way Calling – Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation.

3.1.8. Custom Calling Features (cont'd)

3.1.8.A. Service Offerings (cont'd)

3.1.8.B. Calling features are subject to availability of facilities and compatibility with central office equipment, access lines, and customer premises equipment.

3.1.8.C. Auto Call Back, Call Trace, Priority Call Ringing, Priority Call Forwarding and Caller ID are functional when both the call originating customer and the call terminating customer are served from central offices capable of sending and receiving the Calling Party Number (CPN) and are linked by appropriate facilities.

3.1.8.D. Services with call forwarding capabilities (including Call Forwarding, Call Forwarding-Busy Line, Call Forwarding-Don't Answer) cannot be used on a continual basis to expand the local calling scope beyond that available to a customer's premise.

3.1.9. Caller ID Service - Display of Calling Number and/or Name on customer provided equipment. Available to Customers and End Users of Sage's local exchange service on local access lines only. Service includes:

3.1.9.A. Calling Number Delivery - Allows the transmission of Calling Party Number (CPN) to the subscriber's access lines. When a Calling Number Delivery equipped line is on-hook, CPN is transmitted across the line during the silent interval between the first and second ring.

3.1.9.B. Calling Name Delivery - Enables the Caller ID subscriber to identify the calling party by a displayed name before the call is answered. 3.1.9.C. Anonymous Call Rejection - Allows customer to automatically reject all calls that have been marked anonymous by the calling party. When ACR is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

3.1.9.D. Calling Name and Number Blocking - Any Sage Telecom calling party may prevent the delivery of CPN and of Calling Party Name to the called party by dialing an access code (*67 on their touch-tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code activated per call blocking is available at no charge. If a calling party activates blocking, the CPN and Calling Party Name will not be transmitted across the line. Instead, the Caller ID subscriber will receive an anonymous indicator. This anonymous indicator notifies the Caller ID subscriber that the calling party chose to block name and number delivery.

Per-line blocking will be offered at no charge to a requesting customer if Sage Telecom receives from the customer written certification that the customer has a compelling need for per-line blocking.

Caller ID subscribers must provide and connect their own compatible customer premises equipment (CPE) to process the Calling Number and/or Calling Name transmission.

Subscribers will automatically be provided with both Calling Number and Calling Name delivery, subject to availability in the central office that is servicing the subscriber. If the combination of the two is not available, the subscriber will receive whatever is available, either Calling Number OR Calling Name.

Caller ID features are subject to availability of facilities and compatibility with central office equipment (for both the calling and the called parties), access lines, and customer premises equipment.

Caller ID information will not be displayed under the following conditions: (a) if the called party is off-hook; or (b) if the called party answers during the first ring interval.

3.1.10. Multi-Line Hunting Service - This service is used to establish hunting arrangements between two or more of a customer's local exchange service access lines, and is available to Business and Residential Customers. Customers may choose from one of the following hunt group arrangements:

3.1.10.A. Series Hunting - The hunt for an idle access line starts with the called access line in a prearranged hunt group and ends with the last access line in the hunt group, completing the call to the first idle access line encountered. Unless the first access line in the hunt group is called, only a portion of the access line group is hunted.

3.1.10.B. Circle Hunting - Permits a complete hunt over all the access lines in a prearranged access line hunt group. If no idle access line is encountered, the hunting will continue until it reaches the access line that was originally called.

3.1.10.C. Preferential Hunting - Individual access lines in an access line hunt group may have an associated preferential hunt list. This hunt list specifies a hunting sequence over a predetermined subset or preferential arrangement of up to 18 access lines before proceeding to hunt through the remaining access line hunt group.
