Re: In the Matter of the Application of South Central Communications-- Telcom Services, LLC, For a Certificate of Public Convenience and Necessity to Provide Facilities-Based Local Exchange Service within the State of Utah, Docket No. 08-2495-01

Dear Ms. Springer:

This letter is with reference to prior communications between representatives of the Division of Public Utilities (the "DPU") and those of South Central Communications--Telcom Services, LLC ("SCC Telcom") regarding the financial resources of SCC Telcom to provide telecommunications services.

As the DPU is aware, SCC Telcom is a start-up company. SCC Telcom has, however, the financial backing and wherewithal to provide telecommunications services to its customers. In particular, SCC Telcom has access to the financing and capital necessary to conduct its telecommunications operations as provided in its application. In addition, as requested by the DPU, South Central Utah Telephone Association, SCC Telcom's parent company, will provide the necessary financial and other resources to SCC Telcom in order to assure that SCC Telcom is able to maintain its business operations and provide the telecommunications services for which it seeks certification.

If you have any questions concerning the above, please feel free to contact me at your convenience.

Very truly yours,

South Central Utah Telephone Association

Brant Barton
