Re: Letter from Qwest Corporation Requesting Relief from Utilization Requirements, Docket No. 09-049-13

Dear Diane,

On March 19, 2009 the Utah Public Service Commission received a request for a waiver of utilization requirements by Qwest Corporation. The request is for the ten (10) one-thousand blocks in the 385-NXX Salt Lake rate center to serve a customer request which Qwest Corporation cannot provide based on its current inventory.

Through correspondence, Qwest Corporation has substantiated a verifiable need for additional numbering resources. Based on the authority delegated to the states in paragraph 61 of the FCC's Third Report and Order on Numbering Resource Optimization, the Utah Public Service Commission grants Qwest Corporation's request for a waiver of the Months to Exhaust (MTE) requirements. Thereby the Commission's waiver allows NANPA to provide Qwest Corporation with the necessary ten (10) one-thousand number blocks in the 385 NPA Salt Lake rate center.

If you have further questions or comments, I can be reached by phone at (801) 530-6713.

Cordially,

/s/ Julie Orchard
Commission Secretary
