

GENERAL RULES AND REGULATIONS (Continued)

L. GRANDFATHERED SERVICES

(N)

Grandfathered services are tariff offerings which are limited to existing Subscribers and are not available to new Subscribers. If a service is identified in this tariff as “grandfathered,” it means the service is limited to existing services provided to existing Subscribers. Existing service is service that was in place prior to the Effective Date of the tariff revision that identifies the service as “grandfathered.” Existing Subscribers are those Subscribers who were already subscribing to a service prior to the Effective Date of the tariff revision that identifies the service as “grandfathered.”

New Subscribers are not eligible to subscribe to a grandfathered service. This includes previously grandfathered Subscribers who have for any reason discontinued their grandfathered service.

The Company reserves the right to discontinue any Grandfathered Service at any time.
