Judge Reif --

I just saw your e-mail to me, and I apologize for the delay responding to you. We filed testimony supporting our request for a rate increase in residential rates to \$16.50, company-wide. The NECA memo deals with the CAF floor of \$16.00 per month. By raising the monthly residential rate to \$16.50, Beehive will be in compliance with both the NECA floor and the Affordable Base Rate for state USF purposes of \$16.50.

This is covered at page 2 of the Warner testimony, lines 39-44. Mr. Hendershot also testified to the same thing while he was on the stand, and it is referenced in his testimony at page 5, lines 87-101.

I didn't send the NECA memo to create confusion, only to remind the other parties that it had been sent to them previously. You saw it yesterday for the first time. I'm quite sure that the other parties are clear about this, because it's also treated in the Stipulation on page 2, paragraph 3.

If there are other questions, please let me know.

Dave Irvine
