Notification Category:	Network Notification
Target Audience:	
Subject:	CLEC Legal Ownership Information and Fiber-based Collocation Validation - Action Requested

CenturyLink will be filing with state regulatory commissions requesting that certain wire centers located in those states be deemed non-impaired. This filing is being made because the wire centers meet the threshold criteria for non-impairment outlined in the Federal Communication Commission's ("FCC") Triennial Review Remand Order, FCC-04-290 ("TRRO").

One component of the FCC's non-impairment thresholds is the presence of fiber-based collocators in a wire center. Rule 51.5 of the FCC rules requires that to be deemed a fiber-based collocator; the following criteria must be met:

A fiber-based collocator is defined as any carrier, unaffiliated with the incumbent LEC (CenturyLink), that maintains a collocation arrangement in an incumbent LEC (CenturyLink) Wire Center, with active electrical power supply, and operates a fiber-optic cable or comparable transmission facility that:

- a. terminates at a collocation arrangement within the Wire Center;
- b. leaves the incumbent LEC's (CenturyLink's) Wire Center premises; and
- c. is owned by a party other than the incumbent LEC (CenturyLink) or any affiliate of the incumbent LEC (CenturyLink), except as set forth in this definition. Dark fiber obtained from an incumbent LEC (CenturyLink) on an indefeasible right of use basis shall be treated as non-incumbent LEC (non-CenturyLink) fiber-optic cable. Two or more affiliated fiber-based collocators in a single Wire Center shall collectively be counted as

a single fiber-based collocator. For the purposes of this definition, "affiliate" is defined by 47 U.S.C. §153(1) and any relevant interpretation in that title.

The purpose of this notice is to advise you that CenturyLink is relying on the fiber-based collocation owned and operated by your company in support of its request that certain wire centers be found to be non-impaired and, therefore, relieving CenturyLink of unbundling obligations for certain high capacity UNEs.

Provided below is your carrier-specific fiber-based collocation data on which CenturyLink is relying for its determination of wire center non-impairment. Please review this data and contact CenturyLink by no later than June 15, 2015, if you disagree with the fiber-based collocation designation and you have information to support this position or if there is some inaccuracy in the information CenturyLink has on file identifying legal ownership.

CLEC Name	State	WC CLLI	CO Name	Type of Collocation
	UT		American Fork	Cageless
	UT		Kaysville	Caged
	UT		Salt Lake City East	Caged

By close of business on June 15, 2015, please send to CenturyLink via certified mail a letter that includes:

- a. A verification of the ownership/relationship information described above, and;

- b. Additional information about other ownership relationships that may have an impact on CenturyLink's fiber collocation customer records for this wire center, if any, and;
- c. A confirmation that these relationships meet the requirements of the FCC's Order and;
- d. A validation of the fiber-based collocation data as described above.
- e. Corrections if any errors are contained in the information provided.
