7.4 FEATURES (continued)

7.4.18 Call Trace

This feature permits the user to activate an immediate trace of a prank or harassing call by hanging up and dialing \*57. When Call Trace is initiated, the Customer's telephone number and the telephone number of the last received calling party number are captured and made available to the Customer's local law enforcement agency. After dialing \*57, the Customer receives a recording indicating the trace was successful. The Customer may then call Customer's local law enforcement agency to pursue further action. The Company does not represent that any local law enforcement officials will take action with regard to the traced call. The charge for Call Trace is assessed on a per use basis. The Customer will be charged only for successful traces.

In addition to, and not in limitation of, the provisions in Section 2.2, the Company's liability, if any, other than for its gross negligence or willful misconduct, with respect to any claim or suit brought by, or other legal remedies available to the Customer for damages associated with the success or failure of Call Trace, shall not exceed the charge that the Customer incurred for Call Trace. Except as provided above, the Customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the use of Call Trace.

7.4.19 Repeat Dial

This feature allows the user to redial the last number dialed. To activate this feature, the user dials \*66. The last number dialed will then be redialed for up to 30 minutes and the user will be signaled with a special ring if the called number becomes available. The user will be charged each time this feature is activated regardless of whether the called party answers. Calls completed with this feature will be subject to all appropriate local, local toll and/or long distance charges. The following limitations apply to the Repeat Dial function when used with other features:
