Attorneys for Questar Infocomm, Inc.

BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

In the Matter of the Petition of Questar Infocomm, Inc. for Cancellation of Its Certificate of Public Convenience and Necessity	Docket No. 16-2416-01 PETITION FOR CANCELLATION OF CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY
---	--

Questar Infocomm, Inc. (“Infocomm”), requests that the Commission enter an order effective immediately cancelling the Certificate of Public Convenience and Necessity (“Certificate”) issued to Infocomm pursuant to the Report and Order dated July 12, 2004, in Case No. 03-2416-01 (the “Order”).

REQUEST FOR CANCELLATION OF CERTIFICATE

In support of this Petition, Infocomm states the following:

1. In October 2003, Infocomm applied to the Commission for a certificate of public convenience and necessity in order to offer “dedicated private line service in the State of Utah but only if the Commission determines that such service qualifies as ‘other public telecommunications service’” (the “Application”). *See* Application, Case No. 03-2416-01 (10/09/03).

2. The Commission granted the Application by its Order dated July 12, 2004. *See* Order, Case No. 03-2416-01 (07/12/04).

3. The Order granted permission for Infocomm to offer “the telecommunications services for which it has applied.” *Id.*

4. Beginning in July 2004, Infocomm offered use of its and its affiliates’ excess bandwidth on microwave circuits and local specialized mobile radio (“SMR”) service to the public.

5. Between July 2004 and January 2016, Infocomm’s customers either leased point-to-point microwave service or SMR service.

6. Between July and September 2015, Infocomm notified its customers that it would no longer be able to offer transmission services to them after December 31, 2016.

7. As of January 1, 2016, Infocomm ceased providing local SMR services to the public.

8. Also on January 1, 2016, Infocomm ceased offering fixed point-to-point transmission services to the public.

9. As of August 1, 2016, only five customers continue to use fixed point-to-point transmission services through Infocomm, all of which use Infocomm’s facilities to operate private communication systems or public services not regulated by this Commission.

10. Infocomm's sharing of frequencies with current customers is permissible under Federal Communications Commission rules and is not regulated by this Commission.

11. Therefore, Infocomm no longer needs or qualifies for a certificate of public convenience and necessity.

12. Infocomm desires that the Certificate be cancelled soon to simplify the proposed merger of its parent company, Questar Corporation, that is currently before this Commission in Docket 16-057-01.

CONCLUSION

Based on the foregoing, Infocomm requests that the Commission enter an order cancelling the Certificate effective immediately, and for such other relief as is deemed just and equitable in the premises.

RESPECTFULLY SUBMITTED: August 12, 2016.
