Re: Letter from Teleport Communications America, LLC Requesting Relief from Utilization Requirements, Docket No. 18-2558-01

Dear Ms. Harrell-Simington,

On January 5, 2018, the Utah Public Service Commission (PSC) received a request for a waiver of Threshold Utilization and/or Months to Exhaust requirements by Teleport Communications America, LLC (TCA). The request is for three blocks of 1,000 sequential numbers (3,000 numbers total) in the 801/385 NPA Provo Rate Center, which TCA cannot provide based on its current inventory.

Through correspondence, TCA has substantiated a verifiable need on the part of one of its customers for additional numbering resources. Based on the authority delegated to the states in paragraphs 57-66 of the FCC's Third Report and Order on Numbering Resource Optimization, the PSC grants TCA's request for a waiver of the Threshold Utilization and/or Months to Exhaust requirements, thereby allowing NeuStar to provide TCA with the necessary three number blocks in the 801/385 NPA Provo Rate Center.

If you have further questions or comments, I can be reached by phone at (801) 530-6716.

Cordially,

/s/ Gary L. Widerburg
PSC Secretary
