**Re: Utah Docket No. 19-052-T01, TARIFF:** South Central Utah Telephone Association, Inc. – Proposed Tariff Revisions to Update Old Text, Eliminate Services with no Customers, and Introduce New Service Offerings.

**ISSUE:**

South Central Utah Telephone Association (SCUTA) submitted a filing dated April 15, 2019 to introduce several new services, and to eliminate services no longer available, and to revise and clean up language on multiple sheets that were outdated. The effective date of the filing was proposed to be May 14, 2019.

**RECOMMENDATION: Extension of time requested.**

The Division of Public Utilities (DPU) has reviewed this filing which is quite extensive with changes and revisions to more than 50 sheets. A data request was submitted on April 24, 2019 for further information and documentation pertaining to several of the new service offerings. The company has not yet responded to the data request. Therefore, the Division is requesting an extension of time to gather more information and further review the tariff revisions. The Division requests until June 30, 2019 to complete the action request.
