Release 6**

Issued: 1-24-2020
(A.L. 2020-P01)

Effective: 2-1-2020

11. METRO OPTICAL ETHERNET (MOE)

11.3 RATE ELEMENTS (Cont'd)

C. Central Office Connecting Channel (COCC)

The Central Office Connecting Channel (COCC) rate is comprised of a monthly recurring rate and a nonrecurring rate per connection. This rate will apply when a MOE Bandwidth Port connects to another service.

D. Optional Features

1. Multiple Ethernet Virtual Connections (EVCs) or Operator Virtual Connections (OVCs).

Each MOE Port provided by the Company will come standard with the capability to provide one Ethernet Virtual Connection (EVC) or Operator Virtual Connection (OVC). **An EVC is associated with a UNI port type, an OVC is associated with an ENNI port type.** Customers may order more than one EVC or OVC per port. **The Company will bill a monthly EVC or OVC charge per port that the EVC or OVC terminates on, at rates set forth in 11.D.E, following.**

2. Quality of Service (QoS)

Quality of Service (QoS) allows customers to prioritize their traffic managed through the Company's MOE Service. QoS supports two different Classes of Service management options set forth below:

- Committed Information Rate (CIR) Class of Service or
- Priority Class of Service

Customers must choose the Class of Service management option that will support their Metro Ethernet Network (MEN) requirements. The MOE Service Technical Publication PUB 77411 has specific details to assist in this decision.
