4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES

4.2 LINE EXTENSION CHARGES

- 1. Where telephone facilities are not in place to fulfill an applicant's request for local telephone service, CenturyLink, at its discretion, may extend its facilities to provide the requested service if the costs of the facility extension represent a prudent investment for CenturyLink.**
- 2. Where the costs to extend facilities to accommodate an applicant's request for service do not represent a prudent investment, the applicant may be required to pay a line extension charge equal to all or a portion of the construction charges incurred by CenturyLink to extend the facilities. These charges are in addition to the regularly applicable rates and charges to establish service stated in CenturyLink's Catalog.**
- 3. When the applicant is so located that it is necessary to use private right-of-way/easement to furnish service and CenturyLink is unable to obtain the required right-of-way/easement without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right-of-way. CenturyLink will not proceed with a requested line extension if a satisfactory right-of-way/easement is not provided,**
- 4. For the purpose of this section, costs shall include all material, supplies, engineering, labor, supervision, transportation, and rights-of-way/easements for placing all facilities necessary to provide the requested service, including but not limited to channel equipment, feeder, distribution, and drop facilities, electronics, cards, and any applicable overhead, as determined by CenturyLink.**
- 5. Where a line extension charge is applicable, payment will be required prior to the start of any construction related activity.**
- 6. This also applies to any situation where facilities are upgraded for the improvement of inadequate service.**
