Re: i-wireless, LLC - Petition to Expand ETC Service Area

Dear Mr. Widerburg:

Attached please find for filing the Petition of i-wireless, LLC to expand its Eligible Telecommunications Carrier service area in the State of Utah ("Petition").

I hereby certify that a true and correct copy of the above referenced Petition was filed upon the Commission via e-mail on June 28, 2021.

If you have any questions, or if I may provide you with any additional information, please do not hesitate to contact me at 770-232-9200 or hkirby@telecomcounsel.com. Thank you for your attention to this matter.

Respectfully submitted,

s/ Heather Kirby

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF UTAH**

Petition of i-wireless, LLC to expand its Eligible Telecommunications Carrier service area)))))	Docket No.
--	-----------------------	------------

**PETITION OF I-WIRELESS, LLC TO EXPAND ITS ELIGIBLE
TELECOMMUNICATIONS CARRIER SERVICE AREA IN UTAH**

I. INTRODUCTION

i-wireless, LLC (“i-wireless” or the “Company”), by its undersigned counsel, and pursuant to Section 214(e)(2) of the Communications Act of 1934, as amended (the “Act”),¹ Sections 54.101 through 54.207 of the Rules of the Federal Communications Commission (“FCC”),² and the rules and regulations of the Public Service Commission of Utah (“Commission”), hereby petitions the Commission to expand i-wireless’ Eligible Telecommunications Carrier (“ETC”) service area in the State of Utah (“Petition”). i-wireless seeks expansion of its ETC designated service area that is statewide in scope, to allow the Company to provide Lifeline service wherever its underlying facilities-based providers have wireless coverage.

i-wireless was designated as a Lifeline-only ETC by Commission Order issued June 29, 2011 in Docket No. 10-2526-01 for purposes of receiving federal low-income Universal Service Fund (“USF”) support.³ i-wireless requests to expand its ETC service area to provide Lifeline

¹ 47 U.S.C. § 214(e)(2)

² 47 C.F.R. §§ 54.101-54.207.

³ *In the Matter of the Petition of i-wireless, LLC for Designation as an Eligible Telecommunications Carrier in the State of Utah for the Limited Purpose of Offering Lifeline Service to Qualified Households*, Docket No. 10-2526-01 (“ETC Petition”), Report and Order (June 29, 2011) (“ETC Designation Order”).

service to additional qualifying Utah households. The Company does not seek access to USF support for the purpose of providing service to high-cost areas.⁴

As demonstrated herein, and as certified by Exhibit 1 attached hereto, i-wireless continues to meet all statutory and regulatory requirements for designation as an ETC, including those set forth in the FCC's *Lifeline and Link Up Reform Order*⁵ and *Lifeline Modernization Order*.⁶ Rapid grant of i-wireless' request would advance the public interest by enabling the Company to expand the availability of Lifeline service to many more low-income consumers in Utah, especially in light of the continued national state of emergency. Accordingly, i-wireless respectfully requests that the Commission expeditiously approve this Petition.

All correspondence, communications, pleadings, notices, orders and decisions relating to this Petition should be addressed to:

Lance J.M. Steinhart
Managing Attorney

(770) 232-9200 (Phone)
(770) 232-9208 (Fax)
E-Mail: lsteinhart@telecomcounsel.com

⁴ Given that i-wireless only seeks support from the low-income program and does not seek any high-cost support, ETC certification requirements for the high-cost program are not applicable to i-wireless.

⁵ *In the Matter of Lifeline and Link Up Reform and Modernization, Lifeline and Link Up, Federal-State Joint Board on Universal Service, Advancing Broadband Availability Through Digital Literacy Training*, WC Docket No. 11-42, WC Docket No. 03-109, CC Docket No. 96-45, WC Docket No. 12-23, Report and Order and Further Notice of Proposed Rulemaking, FCC 12-11 (rel. Feb. 6, 2012) ("*Lifeline and Link Up Reform Order*").

⁶ *In the Matter of Lifeline and Link Up Reform and Modernization, Telecommunications Carriers Eligible for Universal Service Support, Connect America Fund*, WC Docket Nos. 11-42, 00-197, 10-90, Third Report and Order, Further Report and Order, and Order on Reconsideration, FCC 16-38 (rel. Apr. 27, 2016) (hereinafter, "*Third Report and Order*" or "*Lifeline Modernization Order*").

II. DESIGNATED SERVICE AREA

At the time of its ETC designation, i-wireless was utilizing Sprint Spectrum L.P. (“Sprint”) as its underlying carrier. i-wireless continues to provide wireless Lifeline service utilizing the Sprint wireless network but is in process of transitioning to the T-Mobile USA, Inc. (“T-Mobile,” collectively “Underlying Carrier”) wireless network because of the merger between Sprint and T-Mobile. Through its Underlying Carrier agreement(s), i-wireless provides to its customers the ability to remain functional in emergency situations, including access to a reasonable amount of back-up power to ensure functionality without an external power source, the ability to reroute traffic around damaged facilities, and the capability of managing traffic spikes resulting from emergency situations.

On July 27, 2018, i-wireless filed a petition with the Commission seeking to amend its ETC designation to include participation in the Utah Universal Service Fund (“UUSF”) in Docket 18-2526-01 (the “UUSF Petition”). On March 18, 2019, the Commission issued an Order granting conditional approval of a Stipulation and Settlement Agreement in support of i-wireless’ participation in the UUSF and receipt of state support for Lifeline services, concluding it was in the public interest.⁷ A condition of the Settlement Agreement was that i-wireless would timely file notice with the Commission, the Utah Division of Public Utilities and the Utah Office of Consumer Services and seek approval if it intended to modify the area in which it offers Lifeline service in the State.⁸ i-wireless now files this Petition seeking approval to expand its ETC-designated service

⁷ *Petition of i-wireless, LLC to Amend its Designation as an Eligible Telecommunications Carrier in the State of Utah to Participate in the Utah Universal Service Fund*, Order Approving Stipulation and Settlement Agreement, Docket No. 18-2526-01 (issued March 18, 2019) (“UUSF Approval Order”).

⁸ *UUSF Approval Order* at para. 5(x).

area to include additional areas, which encompass non-rural and rural service areas and include federally-recognized tribal lands, in which its underlying carriers have sufficient coverage.

While federal rules (47 U.S.C. §§ 160, 214(e)(5) and 47 C.F.R. § 54.207(b)) require that the service area of an ETC conform to the service area of any rural telephone company serving the same area (the “service area conformance” requirement), in 2013 the FCC authorized forbearance from the service area conformance requirements with respect to carriers seeking to provide Lifeline-only service.⁹ In light of this forbearance, the Commission has the authority to designate ETCs such as i-wireless in rural areas without concern for the service area conformance requirement.

i-wireless’ provides attached Exhibit 2 to describe its current coverage footprint, using a zip code coverage list as well as an updated corresponding wire center list. Exhibit 2 denotes a small amount of zip codes that are not yet covered by the T-Mobile network but will be in the near future as the Sprint and T-Mobile networks gradually combine; i-wireless does not currently have customers in these zip codes and thus any delay in transition will not adversely affect customers. i-wireless seeks to expand its ETC designated service area to be statewide subject to the wireless network coverage of its underlying carrier(s), including as it may expand going forward.

III. I-WIRELESS MEETS APPLICABLE REQUIREMENTS

FCC rules, 47 C.F.R. §§ 54.201-54.202 (the “FCC ETC Rules”), set forth the information that must be contained in an application for designation as an ETC. In its initial ETC Petition and Testimony filed in Docket No. 10-2526-01, incorporated herein by reference, i-wireless provided the information required by FCC ETC Rules in effect at the time. The Commission found in its

⁹ See *In the Matter of Telecommunications Carriers Eligible for Support, Lifeline and Link Up Reform*, WC Docket No. 09-197, WC Docket No. 11-42, Memorandum Opinion and Order, FCC 13-44 (rel. April 15, 2013).

ETC Designation Order that i-wireless met the requirements for designation as an ETC. In accordance with 47 C.F.R. § 54.202(a)(1)(i) and by the attached certification, i-wireless certifies that it will comply with the service requirements applicable to the support that it receives. i-wireless hereby also provides additional and updated information as a result of the FCC's *Lifeline Reform Order* and *Lifeline Modernization Order*, which were issued after the Company's ETC Designation Order.

A. Provision of Supported Services

i-wireless is able to provide all services supported by the universal service program, as detailed in Section 54.101(a) of the FCC's Rules (47 C.F.R. § 54.101(a)), throughout its requested service area in the State of Utah, including broadband Internet access service ("BIAS"), a supported service as of December 2, 2016. i-wireless provides Lifeline service under the d/b/a Access Wireless. i-wireless commits that its Lifeline-supported services will continue to meet or exceed the minimum service standards set forth in 47 C.F.R. § 54.408, including as they change going forward. Further, i-wireless' Lifeline offering will meet any additional requirements to qualify for UUSF support. The Company's current Lifeline offering is attached hereto as Exhibit 3.¹⁰ i-wireless currently offers these Lifeline wireless plans throughout its existing service area in Utah and, upon approval of the instant Petition, intends to offer these plans throughout all areas of the state where its Underlying Carrier has sufficient wireless network coverage.

B. Financial and Technical Capability

i-wireless is financially and technically capable of providing the Lifeline service in accordance with 47 C.F.R. § 54.202(a)(4). i-wireless is 50% owned by Genie Global, Inc. and 50% owned by The Kroger Co., the nation's largest grocery retail chain and the third largest retailer

¹⁰ The Company's terms and conditions can be found at <https://www.accesswireless.com/>.

overall. i-wireless is a fully consolidated variable interest entity of The Kroger Co., as defined by The Sarbanes-Oxley Act. The Kroger Co. is a publicly traded company with \$123 Billion in sales and is 23rd on Fortune’s 500 list. i-wireless has been in business for over 14 years and successfully provides wireless services throughout the United States, including Lifeline services in 40 jurisdictions.¹¹ The Company does not, and does not intend to, offer exclusively Lifeline-supported services—and is therefore not exclusively dependent on universal service support for its revenue. i-wireless has not been subject to enforcement action or ETC revocation proceedings in any state.¹² Furthermore, the senior management of i-wireless has great depth in the telecommunications industry and offers extensive telecommunications business technical and managerial expertise to the Company.

C. Eligibility Verification

i-wireless determines eligibility of Lifeline subscribers in accordance with 47 C.F.R. § 54.410, utilizing the streamlined eligibility criteria implemented by the *Lifeline Modernization Order* (see 47 C.F.R. § 54.409). The FCC has taken steps to curb abuse in the Lifeline program by establishing the National Lifeline Eligibility Verifier (the “National Verifier”), which transfers the responsibility of eligibility determination away from Lifeline providers.¹³ i-wireless must rely on the National Verifier to determine initial eligibility and annually recertify eligibility of Utah Lifeline subscribers. The National Verifier queries the National Lifeline Accountability Database

¹¹ i-wireless has been designated as an ETC in Arkansas, Arizona, California, Colorado, Georgia, Idaho, Iowa, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Texas, Utah, Washington, West Virginia and Wisconsin, and by the FCC in Alabama, Connecticut, Delaware, District of Columbia, Florida, New Hampshire, New York, North Carolina, Tennessee, and Virginia.

¹² i-wireless entered into a Consent Decree with the FCC (see FCC 17-176 adopted December 22, 2017, File No.: EB-IHD-13-00010656,) to resolve a Notice of Apparent Liability for Forfeiture with no admission of liability by i-wireless.

¹³ See *Lifeline Modernization Order*, section III.C.

(“NLAD”) for every enrollment to determine whether a prospective subscriber is currently receiving a Lifeline service from i-wireless or any other ETC, and whether anyone else living at the prospective subscriber’s residential address is currently receiving Lifeline service. As such, i-wireless complies with the requirements of 47 C.F.R. §54.404.

D. Non-Usage Policy

i-wireless has updated its non-usage policy in compliance with changes in federal regulations. i-wireless will not seek reimbursement from the USF for inactive subscribers and will de-enroll any subscriber that has not used the Company’s Lifeline service as set forth in 47 C.F.R. § 54.407(c)(2). An account will be considered active if the authorized subscriber establishes usage, as “usage” is defined by 47 C.F.R. § 54.407(c)(2), during the specified timeframe, currently a period of thirty (30) days, or during the notice period set forth in 47 C.F.R. § 54.405(e)(3), currently a period of fifteen (15) days. In accordance with 47 C.F.R. § 54.405(e)(3), i-wireless will provide the subscriber advanced notice, using clear, easily understood language, that the subscriber’s failure to use the Lifeline service within the notice period will result in service termination for non-usage.

IV. EXPANSION OF I-WIRELESS’ ETC SERVICE AREA WOULD PROMOTE THE PUBLIC INTEREST

In its ETC Designation Order, the Commission found that designation of i-wireless as an ETC would serve the public interest. Expansion of i-wireless’ ETC service area will increase the number of low-income individuals that can benefit from the advantages offered by the Company’s Lifeline service, ensuring they have access to wholly-supported or discounted wireless voice and broadband service, and will thus further the public interest by providing more low-income Utah consumers with low-priced and high-quality services. i-wireless’ prepaid wireless plans enable consumers to enjoy the benefits of wireless telecommunication without being subject to extensive

credit reviews and long-term service commitments, which historically have prevented many low-income Americans, including many Utah residents, from reaping the full benefits of the intensely competitive wireless market.

i-wireless' Lifeline offerings compare favorably with those of other competitive ETCs and provide Lifeline customers with voice minutes, unlimited text messages, and a data allotment (with plan options meeting the voice and/or broadband minimum service standards), at no net cost to the customer after application of Lifeline and UUSF support. In today's market, consumers, including qualified Lifeline customers, view the portability and convenience of wireless service not as a luxury, but as a necessity. Mobile service allows children to reach their parents wherever they may be, allows a person seeking employment greater ability to be contacted by potential employers, and provides end users with the ability to contact emergency service providers regardless of location. Mobile Lifeline service is essential not only for access to telephone service, but also to bridging the digital divide through provision of mobile broadband usage which is critical to full participation in modern society.

Without question, prepaid wireless services have become essential for low-income customers, providing them with value for their money, access to emergency services on wireless devices, and a reliable means of contact for prospective employers, social service agencies or dependents. Providing i-wireless with the authority necessary to offer discounted Lifeline services to eligible residents in additional areas of Utah undoubtedly promotes the public interest.

V. CONCLUSION

i-wireless submits that the information contained herein, together with the information in the Company's ETC Petition, incorporated herein by reference, demonstrates that i-wireless meets the requirements for ETC designation and that expansion of the Company's ETC service area will serve the public interest.

WHEREFORE, i-wireless respectfully requests that the Commission promptly grant this Petition and expand i-wireless' Lifeline-only ETC service area as requested herein.

Respectfully submitted,

s/ Lance J.M. Steinhart
