#### Demarcation Point

The point of connection provided and maintained by the telephone company, at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling, this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

#### Direct Dialing

The capability for a subscriber to dial anywhere in the United States with a series of numbers without operator assistance.

#### Exchange Area

The territory served by an Exchange.

#### ~~Extension Station (Off Premise Extension)~~

~~An additional station connected to the main station and having the same telephone number as the main station.~~

#### Extra Listing

Any listing of a name or information in connection with a subscriber's telephone number beyond that to which he is entitled in connection with his regular service.

#### Foreign Exchange Directory Listing

An alphabetical and directory listing in the directory of an exchange other than the exchange in which a subscriber is furnished local service.

Foreign Exchange Service

Exchange Service furnished to a customer from a central office located in an exchange other than that in which the customer's primary station is located, ~~or off-premises station service furnished a customer in an exchange other than that in which the customer's primary station is located.~~

Individual Line

An exchange line designed for the connection of only one access line.

Installation Charge

A non-recurring charge made for the placing or furnishing of telephone equipment, which may apply in place of or in addition to Service Connection Charges and other applicable charges for service or equipment.

Key System

An arrangement of key equipped instruments capable of providing intercommunication and multi trunk communication with the general exchange and interexchange network.

Local Channel

That portion of a channel which connects a station to the interexchange channel; it also applies to a channel connecting two or more stations within an exchange area.

Local Exchange Service

Telephone service furnished between subscriber's stations located within the same local service area.

Local Message

A communication between subscribers' stations within the same Exchange Area.

Local Service Area

That geographical area throughout which a subscriber obtains telephone service without the payment of a toll charge.

## NETWORK ACCESS LINE SERVICE

### RATES

<u>Service (Exchange)</u>	<u>Residential (R1)</u>	<u>Business (B1)</u>
One-Party Service		
Duchesne	\$28.75	\$356.50
Roosevelt	\$28.75	\$356.50
Vernal	\$28.75	\$356.50
All Others	\$28.75	\$356.50
PBX Trunk		\$50.50
PBX Outward Only		\$356.50
Remote Call Forward		\$18.25

### CONDITIONS

The above rates apply to the provision of network access lines which, when connected to a suitable instrument provides access to the telecommunications network and are billed on a per line per month basis.

Instruments must be provided by the subscriber, subject to the conditions described in the Connection with Customer Provided Equipment portion of this tariff.

Additional instruments may be attached to network access lines. The Company reserves the right to limit the number of instruments connected to an access line if they cause interference with the normal operation of the line.

PBX Outward Only allows only outgoing calls from the customer's PBX or Key System. It provides access to 911, dial tone, operator services, and long-distance services, but does not allow incoming calls.

Remote Call Forwarding allows a subscriber to have incoming calls forwarded to another number. This service is not programmable by the subscriber, it is a fixed feature. Applicable Service Order Fees and Central Office Line Connection Charge will apply when adding or modifying this feature.

~~[RESERVED] OFF-PREMISE EXTENSION SERVICE~~

~~RATES~~

<del>Off-Premise Extension Service</del>	<del>Installation Charge</del>	<del>Monthly Rate</del>
<del>Continuous Property</del>	<del>Actual Cost</del>	<del>No Charge</del>
<del>Non-Continuous Property (each location)</del>	<del>Applicable Non-Recurring Charges</del>	<del>Applicable Access Line Rate</del>

~~CONDITIONS~~

~~Off-premise extension service, where the extension is located in a different building on the same continuous property as the main access line termination, may be installed by the Company. The installation charge will be negotiated between the subscriber and the Company. The subscriber is responsible for the maintenance of any subscriber-owned wiring. No recurring monthly charge will apply in this situation.~~

~~Continuous property extensions are defined as those where the drop to the additional access point comes directly from the premises of the main access line termination and does not come out of the distribution cable as long as the same cable pair or fiber optic termination is used, and no additional facilities are required.~~

~~When off-premise extension service is provided on Non-Continuous property, each location is treated as an access line termination and the applicable access line rates will apply at each location. Installation will be performed based on all applicable Non-Recurring service connection elements.~~
