	ISSUED: July 22, 2003
	SYNOPSIS
Enron Telecommunications, Inc. having requested the Commission so orders.	that its certificate of public convenience and necessity be canceled,
By The Commission:	

PROCEDURAL HISTORY

On March 26, 2001, Enron filed an application for authority to provide facilities-based and resold local exchange, interexchange, and dedicated private line services in the State of Utah. The application was given Docket No. 01-2363-01. The case was converted into an informal proceeding and there was no hearing held. The Commission granted Certificate of Public Convenience and Necessity No. 2363 on July 6, 2001. The Company was authorized "... to provide local and interexchange services, including facilities-based as well as resold services, anywhere within the State of Utah, except within the service territory of any local exchange with fewer than 5,000 access lines that is owned or controlled by an incumbent telephone corporation with fewer than 30,000 access lines within the State."

By letter dated July 17, 2003, Enron requested cancellation of its certificate in Utah. The letter from the Company's Managing Director and Chief Operating Officer states that the Company is in bankruptcy and is not conducting any business in Utah.

The Commission has received a memorandum from the Utah Division of Public Utilities (Division) with a fax copy of the letter attached to the memorandum. The Division states that it is their understanding that the Company does not now provide any service in the state of Utah. Therefore, the termination of the Company's authority will have no adverse impact upon any consumers in the state of Utah.

The Division's memorandum also states that Enron has not filed its annual report for the year 2002 that was due on March 31, 2003, has not filed its Report of Gross Revenue for the year 2002 that was due on April 15, 2003, and has not paid its Public Utilities Regulation Fee that was due on July 1, 2003. The Division has recommended that the Commission cancel the certificate of public convenience and necessity held by Enron Telecommunications, Inc.
