RECEIVED

**Subject: In the matter of the request for rate increase of Hidden Creek water company- Docket No 09-2440-01**

To whom it may concern:

I am writing to you to aggrieve the rate increase proposed by Hidden Creek Water Company. The residents of the community affected need more time to gather all the facts regarding the rate increase. The water company did a very poor job communicating the meeting that was held by the Public Service Commission of Utah on January 20, 2010. Hence no one from the community (that will be negatively impacted by the decision) showed up to the meeting. In addition, pursuant to section 63G-4-301 and 54-7-15 of the Utah code, an aggrieved party may request agency review or rehearing of the order filed within 30 days after the issuance of the order. We did not receive a copy of the decision until March 5<sup>th</sup> (some neighbors did not receive it until yesterday). This will give us only 6 days to respond. This is a very serious matter that the community is very upset about. I respectfully ask you to give us more time to review and evaluate the rate increase.

Sincerely,

John Balian
