
HIDDEN CREEK WATER COMPANY

April 1, 2010

Dear Customer,

You are invited to attend a technical conference that will be held on April 22 at 10:00 a.m. in room 474 of the Heber M. Wells Building located at 160 East 300 South, Salt Lake City, Utah. The purpose of this technical conference is to allow officers of Hidden Creek Water Company to present the reasons for a proposed rate increase. The rate increase could raise the rates you pay for water usage.

Hidden Creek officers will first present the reasons for their requested increase. Personnel for the Utah Division of Public Utilities will also be in attendance. The Division will then present its recommendation. Previously, the Division had recommended that Hidden Creek be allowed to increase its rates in order to maintain a viable water system. Afterward, there will be some time for questions and answers.

It is important to note that the company complied with the Division of Public Utilities notice requirements regarding the prior public hearing on this rate case held this past January 20, 2010 the purpose of which was to allow for customer comment on the proposed rate increase. The company included notice of that January 20, 2010 hearing on each customer's January 1, 2010 billing invoice which invoice was mailed out to each customer on January 2, 2010. It is also important to note that after a six month complete and thorough audit and analysis of the company by the Division of Public Utilities, the Division recommended and the Commission approved a new rate structure. The Commission approved the company to initiate the new rate structure which is why each customer's March 1, 2010 invoice reflected the new rate and fee charges.

Sincerely yours,

Tracy Tanner
