

Public Service Commission - Docket Number 11-097-01

From: "Larry & Sharon Zini" [REDACTED]
To: "Commission, Public Service" <psc@utah.gov>
Date: 4/20/2012 4:31 PM
Subject: Docket Number 11-097-01
CC: "Patricia (Trisha) PSC Schmid" <pschmid@utah.gov>, Chris Parker <chrispa...>

To Public Service Commission:

Regarding: Docket Number 11-097-01

As complainants in the above referenced docket number we are requesting a modification of the April 19, 2012 Notice of Scheduling Conference and Consolidation of These Docket Numbers, Docket Number 11-097-01, Docket Number 11-097-02 and Docket Number 11-097-03.

On page 2 of the Notice, at the end of paragraph one it reads:

"The Commission's prior request to the Division of Public Utilities ("Division") to investigate the complaint extends to the supplemental allegations. To the extent existing Mountain Sewer Corporation records allow, the Division's examination of the various rate relief proposals shall include investigation of the billing and financial irregularities the complainants have alleged."

We request that in the second sentence after the words "existing Mountain Sewer Corporation records" the following be added, "and existing Lakeview Water Corporation records".

This request is based on our Supplemental to the Formal Complaint, Part Two Financial Irregularities. In our supplemental paragraph two states:

"After discussions with numerous Mountain Sewer customers, we encountered several billing irregularities regarding the regulated connection fees, pre-connection or standby sewer fees, and unbilled monthly sewer fees. In addition, there are indications of disregard of individual corporate entities, and possible comingling of funds between and among Mountain Sewer Corp., Lakeview Water Corp., and Mr. Catanzaro's other corporations, including his personal finances."

The last paragraph of our supplemental states:

"The Complainants are confident that a complete and comprehensive audit from at least 2002 forward will identify numerous other irregularities in the records of Mountain Sewer and Lakeview Water Corporations. In truth, such an audit should

proceed from the present backwards, and should continue for as many years as irregularities come to light. Anything less will fail to reveal the true extent of Mountain Sewer's transgressions, and will operate to the detriment of Mountain Sewer's ratepayers."

Thank you for your assistance in this matter,

Sharon and Larry Zini
