Hurricane, UT 84737

Re: Docket No. 11-2178-T01

These changes are necessary to enable the water company to upgrade its system to meet mandatory fire flow, health and safety requirements.

Dear Mr. Gubler:

The Utah Division of Public Utilities ("Division") recommended denial of Commission approval of Apple Valley Water Company's ("Company") tariff change at this time. The Division recommended the Commission treat the September 19, 2011 letter as notification of the Company's intent to file a complete application for a general rate case to increase rates within 30 days. The Commission accepts this recommendation.

Sincerely,

/s/ Julie Orchard
Commission Secretary
