RE: Request to Intervene Pursuant to Utah Code 63G-4-207 in the Matter of Hi-Country  
Estates Homers Association's Request for Reassessment of the Commission's Jurisdiction.

I hereby make this request to intervene in the above referenced matter as I am a member of the  
HOA for two lots and would like to participate in this matter. It was my understanding that all  
users of the water were currently members of the association or served by contract approved by  
the public service commission. I am unaware that water service is available or bring serviced to  
the general public.

There may be no reason for P S C Jurisdiction under the law.
