State of Utah Public Service Commission
Heber M. Wells Building
160 East 300 South
Salt Lake City, UT 84114

Dear Commissioners:

Attached is a copy of our Original Water Service Schedule and a redlined copy of the schedule increasing the 1" meter connection charge from \$1,000 to \$2,000. We also deleted the charges for 1.5" and 2" meters because the 1" meter is the only connection we offer. We are increasing the charge to reflect the actual cost to install a new service. The actual cost of our last installation, approximately 3 years ago, was \$1,500. We were told by the contractor that, in the future, he will have to charge us \$2,000 for the installation including the meter.

The only other requested change is to update the turn-on fee where the meter is already in place to better reflect the actual labor and administrative costs incurred by the company.

Thank you for giving this your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Jolley", with a stylized flourish at the end.

Phillip Jolley
