Re: In the matter of DAMMERON VALLEY WATER WORKS, LLC
APPLICATION TO APPROVE PROPOSED WATER SERVICE SCHEDULES
AND RATES, Docket Number 15-2025-01

RECOMMENDATION:

- **Proceed with Dammeron Valley Water Works, LLC Application to Approve Proposed Water Service Schedules and Rates on the basis that it is a complete filing.**

PROCEDURAL HISTORY:

On or about February 17, 2015 Dammeron Valley Water Works, LLC (Dammeron) filed an Application to Approve Proposed Water Service Schedules and Rates with the Public Service Commission of Utah ("Commission"). On February 18 2015 the Commission issued an Action Request to the Utah Division of Public Utilities ("Division") tasking the Division with reviewing the application for completeness and making a recommendation to the Commission on or before March 18, 2015.

Utah Administrative Rule R746-700-1. C. Lists general information regarding minimum filing requirements for a complete filing for all public utilities. Rule R746-700-50 lists the specific filing requirements for a general rate case application of a water corporation. The Division analyzed and compared the information contained in Dammeron's application to the filing requirements listed in Rules R746-700 and R746-700-50 and has verified that it is a substantially complete filing.
