MESSAGE:

We're pleased to present to you this year's Annual Drinking Water Quality Report. This report is designed to inform you about the quality of the water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water.

If you would like to request a copy, please contact the office.

MESSAGE:

"Dammeron Valley Water Works is applying to the Utah Public Service Commission for a hearing to consider a rate increase. The amount of the rate increase is currently being worked out by our accountants and the Division of Public Utilities. Our last increase was in 2004. The actual rate increase will probably not become effective before April 1st, and maybe as late as September 1st, 2015. Landowners (rate payers) will be able to make written comments and or attend a hearing before an Administrative Law Judge with the Public Service Commission. After Dammeron Valley Water Works formally files its request for a rate increase, additional information regarding this rate case may be viewed at the Utah Public Service Commission's web site under "Water" dockets. The Commission's address is www.psc.utah.gov."
