

REPORT  
*of the*  
PUBLIC SERVICE  
COMMISSION  
OF UTAH  
*to the*  
THE GOVERNOR

*For the Period*  
JULY 1, 1940 to JUNE 30, 1941

REPORT  
*of the*  
PUBLIC SERVICE  
COMMISSION  
OF UTAH  
*to the*  
THE GOVERNOR

*For the Period*  
JULY 1, 1940 to JUNE 30, 1941

To His Excellency, HERBERT B. MAW,  
Governor of the State of Utah.

Dear Governor Maw:

We take pleasure in submitting herewith the twenty-third annual report of the Public Service Commission of Utah covering the fiscal year ended June 30, 1941.

New members of the Public Service Commission took office on July 1, 1941, following the reorganization of the state government. The commissioners who served during the period covered by this report had vacated their offices prior to the time this report was prepared, hence it is submitted over the signatures of the present commissioners.

Respectfully submitted,

(Signed)

DONALD HACKING,  
Chairman,  
W. R. McENTIRE,  
OSCAR W. CARLSON,  
Commissioners.

( S E A L )

Attest:

(Signed) THEODORE E. THAIN,  
Secretary.

# PUBLIC SERVICE COMMISSION

## ROSTER

Ward C. Holbrook ..... President  
 Otto A. Wiesley ..... Commissioner  
 Walter K. Granger\* ..... Commissioner

### GENERAL OFFICE

J. Allan Crockett\*\* ..... Secretary-Counsel  
 Viola Denning ..... Assistant Secretary  
 Ethel Briggs ..... Stenographer

### ACCOUNTING DEPARTMENT

Theodore E. Thain ..... Chief Accountant  
 Darel P. Bartschi ..... Accountant  
 Edwin J. Cowley ..... Accountant  
 Earl Hardy ..... Accountant  
 Glen James ..... Accountant  
 Elliot Kimball ..... Accountant  
 C. R. Walter ..... Accountant  
 Vendla Kennedy ..... Stenographer

I SUMMARY OF ORDERS ISSUED IN FORMAL CASES	18
II MISCELLANEOUS ORDERS AND COMMISSION FINANCES.....	48

**SUMMARY OF YEAR'S ACTIVITIES****Formal Cases Before The Commission**

A summary of the formal cases handled by the commission is shown in Table No. 1 which follows below:

TABLE NO. 1

**FORMAL CASES BEFORE THE COMMISSION**

JULY 1, 1940 to JUNE 30, 1941

TYPE OF CASE	Cases Pending July 1, 1940	Cases Filed 7-1-40 to 6-30-41	Total	Cases Disposed Of	Cases Pending Jun. 30, 1941
Electric Power and Light Rates .....	1	3	4	3	1
Grade Crossing .....	7	18	25	20	5
Motor Transport .....	43	56	99	68	31
Urban Passenger Carrier .....		4	4	4	
Station Agency .....		3	3	3	
Miscellaneous .....	2	4	6	3	3
<b>TOTAL</b> .....	<b>53</b>	<b>88</b>	<b>141</b>	<b>101</b>	<b>40</b>

Summaries of the orders issued in formal cases are contained in Tables Numbers 2 to 14, Appendix I.

**Investigations of Utilities**

The commission issued 11 orders in investigation dockets during the fiscal year ended June 30, 1941. Generally speaking these dockets cover investigations initiated by the commission into the operations of various utilities. A summary of the orders issued in these dockets may be found in Table No. 15, Appendix II. A brief reference is made below to a few of the most important investigation dockets handled.

In Investigation Docket No. 7 Uintah Gas Company was ordered to eliminate its larger gas consumers in order to reduce its monthly gas demand from approximately 5,000,000 cubic feet to 3,000,000 cubic feet. This requirement was imposed to help preserve the fast diminishing supply of natural gas of this company.

In an order in Investigation Docket No. 28 Peoples Light & Power Company was required to set up \$63,123 on its books of account as of January 1, 1940, as the original cost of construction of its properties as determined by the commission's

staff. A similar order was issued in Investigation Docket No. 29 under which Swan Creek Electric Company was required to set up on its books of account the amount of \$69,464 as the estimated original cost of construction of its properties as of January 1, 1940. The latter named company also was ordered to install a new accounting system and to make proper annual depreciation charges on the basis of a rate of 3.2 per cent.

In Investigation Docket No. 31 the commission gave consideration to the problems of insurance policies and bonds required by law to be filed by the motor carriers operating under the commission's jurisdiction. An order was issued in which the commission adopted rules and regulations covering the filing of insurance policies, bonds, and waivers.

### **Informal Dockets**

The commission disposed of 20 informal dockets during the period under review. The majority of these dockets involved reparation claims against the various railroads. A summary of the orders in these dockets may be found in Table No. 17, Appendix II.

### **Special Permissions**

The commission issued 206 special permissions, 138 of which authorized the publication of reduced rates in Utah. The majority of these special permissions were issued to the railroads operating in Utah. Table No. 16, Appendix II, contains a summary of the special permissions.

### **General Orders**

Three general orders and a supplement to one general order were issued by the commission, as shown by Table No. 18, Appendix II. The general orders covered such matters as rules and regulations for telephone utilities and new uniform systems of accounts for Class E and Class F electric utilities. The supplement mentioned provided for the adoption of a list of retirement units for Class E electric utilities.

### **Joint Boards**

It has been pointed out in previous reports of the commission that under the Federal Motor Carrier Act the Interstate Commerce Commission has created joint boards consisting of public service commissions of various states to

conduct hearings on applications for authority to render motor carrier operations in interstate commerce. This commission is represented on numerous joint boards. During the period covered by this report a representative of this commission participated in 25 joint board hearings. These hearings were conducted at Salt Lake City, Utah; Pocatello, Idaho; Ely, Nevada; Rock Springs, Wyoming; Las Vegas, Nevada; Evanston, Wyoming; Idaho Falls, Idaho; Grand Junction, Colorado; Boise, Idaho; and Denver, Colorado.

### **Transportation Rates**

The commission participated in several cases involving freight rates affecting Utah and its people. The following discussion covers the principal cases of this nature in which this commission took a part.

#### **EMERGENCY REDUCTIONS IN RATES ON PEACHES FROM UTAH**

For the past few years, especially during the depression in prices of farm commodities, this commission induced the railroad carriers serving this state to extend emergency reduced rates on peaches, apricots, and other deciduous fruits from Utah to states east and southeast of Utah, but west of the Mississippi River. These rates have ordinarily been published to take effect just prior to the beginning of the fruit season and have expired on December 31 of the same year.

Owing to our apparent need for lower rates of a permanent nature, the railroads, particularly the Union Pacific Railroad Company and The Denver and Rio Grande Western Railroad Company, have published on a permanent basis these reduced rates on peaches and other fruits. The average reduction in rates is about 22 cents per hundred pounds. This reduction has had the effect of helping our growers of fruits to market their products in states east and southeast of Utah in competition with other districts located nearer the large cities in those districts.

We have also secured reduced rates on fruits and vegetables from Utah to Montana destinations which will enable our shippers to make greater use of railroad transportation. The fruits and vegetables from Utah to Montana have moved largely by private trucks in the past and the tonnage has grown to large proportions. In order to recoup some of

this lost traffic, the railroads, at our request, have published substantially reduced rates on fruits and vegetables to western Montana.

### REDUCTION IN RATES ON IRON AND STEEL ARTICLES TO UTAH

The distributors of iron and steel manufactured goods located in Utah have found it increasingly difficult to cover Utah's natural trade area in the sale of iron and steel manufactured goods. This has been caused largely through competition of distributors of the same goods located on the Pacific coast who secure their supplies of these goods from the Atlantic coast by means of inter-coastal boat transportation at much lower rates than those applying from the east by railroad.

In order to meet this situation, an application was filed with the railroads serving Utah seeking a reduction in our freight rates from Chicago to Utah. These rates are the basing rates upon which our Utah distributors pay transportation charges. It was necessary for a representative of this commission to appear in Denver, Colorado, and persuade interested parties there that Utah should have a reduction.

The rates to Denver are 91 cents per hundred pounds and to Salt Lake City 105 cents per hundred pounds, which we proposed to reduce to 95 cents. The Denver distributors agreed to this adjustment and the matter was taken to the railroad traffic committee at Chicago, and after oral argument before that committee by a representative of this commission, the railroads placed the reduced rate in effect in March, 1941. This reduction has resulted in savings of over \$200,000 per annum and has enabled wholesale distributors to increase their distribution territory in competition with Pacific coast distributors.

#### I. & S. DOCKET NO. 4577

### ESTIMATED WEIGHTS ON FRUIT AND VEGETABLE PACKAGES

In December, 1938, the railroads generally throughout the United States published a new tariff containing revised specifications of the estimated weights of certain fruit and vegetable packages. These estimated weights were proposed to be used instead of the actual weights in making ship-

ments from Utah and contiguous states. This commission and the commissions of other states protested to the Interstate Commerce Commission and that commission suspended the new tariff until the lawfulness of the proposed changes could be determined.

A study of the suspended tariff showed that many of the proposed changes would be detrimental to Utah's fruit and vegetable producers. The commission's rate department prepared exhibits and gave testimony at a hearing held at Boise, Idaho, on August 7 and 8, 1939. The Examiner rendered a proposed report recommending that the suspended schedules were not justified and should be cancelled.

This commission was represented at oral argument held before the Interstate Commerce Commission at Washington, D. C., in November, 1940. The Interstate Commerce Commission rendered its decision June 2, 1941, ordering the suspended schedules cancelled without prejudice.

The estimated annual savings to Utah shippers of fruits and vegetables will amount to about \$47,000.00 annually.

#### I. & S. 4648

#### "ALL COMMODITY" FREIGHT RATES

In order to meet truck competition from Chicago to Utah on miscellaneous merchandise, the railroads established a rate of \$2.05 per hundred pounds on so-called "all commodities" not rated lower than \$2.05 per hundred pounds. This \$2.05 rate also excluded such articles as automobiles and other similar commodities upon which regular commodity rates have been published for many years.

Upon protests from the truck lines operating from Chicago to Salt Lake City, the Interstate Commerce Commission suspended the effectiveness of the reduced rate. The hearing was held in Chicago in December, 1940, and a representative of this commission appeared and testified in favor of the proposed rate. The Interstate Commerce Commission, after consideration of all the evidence, decided that the proposed rate was proper and allowed it to become effective.

This "all commodity" rate has had the effect of substantially reducing the cost of transportation on a great many high rated articles from Chicago to Salt Lake City and

Ogden when combined with other shipments making up a carload of not less than 30,000 pounds.

#### I. & S. 4844

### PROPOSED RESTRICTION ON FEEDER LIVESTOCK RATES

In December, 1940, the railroads serving the western part of the United States published a provision which would make the reduced rates applicable upon feeder and stocker livestock interstate not effective on shipments accorded diversion or reconsignment privileges after having been unloaded, and on other shipments accorded other transit privileges. In those cases the higher rates applying on fat livestock would be applied.

Upon protest filed by this commission and others with the Interstate Commission, that commission suspended the effectiveness of the proposed restriction.

#### I. & S. Docket No. 4751

### PROPOSED INCREASES IN FREIGHT RATES ON POTATOES FROM WESTERN STATES TO DESTINATIONS IN OFFICIAL TERRITORY.

By tariffs to become effective January 1, 1940, the carriers proposed increases in rates on carload shipments of potatoes from Colorado, Utah, Idaho, and eastern Oregon to destinations east of the Indiana-Illinois state line and north of the Ohio River, called "official territory".

This commission joined the Idaho Public Utilities Commission in protesting the increases and the Interstate Commerce Commission suspended the said increases until after a hearing.

The hearing was held at Boise, Idaho, on February 19, 1940, at which time this commission presented evidence in opposition to the proposed increases. We showed that the proposed rates to the territory involved would be far in excess of the level of the potato rates now applying to Western Trunk Line destinations; also, that the Interstate Commerce Commission had recently found unjustified increases on potatoes to Western Trunk Line destinations.

The carriers' case was based almost entirely upon their desire to restore former differentials existing between origin territory above mentioned and Greeley, Colorado. This commission pointed out that there were no shipments of potatoes from Greeley, Colorado, to official territory. This commission was represented at oral argument before three members of the Interstate Commerce Commission, May 1, 1940.

The Interstate Commerce Commission rendered decision in this case on July 26, 1940, ordering the suspended schedules cancelled on or before September 4, 1940. The effective date of the order was subsequently postponed to November 4, 1940, December 4, 1940, December 16, 1940, and January 4, 1941, on petition of respondents for reopening of the case to permit consideration by and argument before the entire commission, however, the petition was denied by the commission December 19, 1940.

It is difficult to estimate the savings accruing to the Utah potato growers as a result of the decision in this case. It is true that Utah has a negligible amount of potatoes moving into official territory. However, the fact has been established that Idaho ships between 6,000 and 7,000 carloads of potatoes to official territory and that any increase in the rates on these 6,000 or 7,000 cars would have the tendency to force Idaho to ship more potatoes into Western Trunk Line and southeastern territories which are our best markets, and would break down the prices in our markets thereby adding to the losses of the Utah farmers.

The hearing was held in Chicago at which this commission had a representative who testified against the proposed restriction. After consideration, the commission condemned the restriction as being unreasonable and unlawful, and the proposed rule was cancelled out.

#### I. C. C. Docket 28350

#### WOOL STORAGE INVESTIGATION

For several years the railroads serving Utah and other western wool producing states have provided by tariff that free storage of wool in their warehouses would be accorded shipments moving out-bound over their lines to market. This rule was extended largely for the benefit of shippers and to enable the rail carriers to recover a portion of the

wool tonnage which had been lost to private and public motor carriers.

The Interstate Commerce Commission entered into an investigation of this practice in 1940, and a hearing was held in Salt Lake City during January, 1941. The Utah Commission had a representative testify at the hearing before the Interstate Commerce Commission.

After considering the matter, the Interstate Commerce Commission rendered a decision wherein the practice was upheld as being legal and beneficial to both shipper and carrier, and the practice was permitted to be continued.

### **Cases on Review in The Supreme Court of Utah**

**P. H. MULCAHY, RECEIVER OF THE UTAH-IDAHO CENTRAL RAILROAD CORPORATION, ET AL, PLAINTIFFS, VS. PUBLIC SERVICE COMMISSION OF UTAH, FULLER-TOPONCE TRUCK COMPANY AND SALT LAKE-OGDEN TRANSPORTATION COMPANY, DEFENDANTS (Supreme Court No. 6282)**

This case is a continuation of extensive litigation resulting from the issuance to Fuller-Toponce Truck Company of a certificate of convenience and necessity to operate as a common motor carrier in intrastate commerce between Salt Lake City and Ogden and intermediate points on the one hand, and, on the other hand, the Utah-Idaho line, serving all intermediate points north of Ogden. Following a denial by the commission of a petition for rehearing P. H. Mulcahy, receiver of The Utah Idaho Central Railroad Corporation, et al, filed a petition with the Supreme Court of Utah for a writ of review. The commission's record in the case was sent up to the Supreme Court on July 23, 1940. At the closing date of this report the case had been argued and briefs filed but the court's decision had not been handed down.

**THE DENVER AND RIO GRANDE WESTERN RAILROAD COMPANY, ET AL, PLAINTIFFS VS. PUBLIC SERVICE COMMISSION OF UTAH AND CARBON FREIGHT LINE, INC., DEFENDANTS. (Supreme Court No. 6325)**

In an order dated February 8, 1939, the commission issued Certificate of Convenience and Necessity No. 484 to

Carbon Freight Line, Inc., authorizing it to operate as a common motor carrier of property between Salt Lake City and points in Carbon County. The Denver and Rio Grande Western Railroad Company petitioned the Supreme Court of Utah to review the commission's order following a denial by the commission of an application for rehearing. Carbon Freight Line, Inc., cross appealed. By stipulation the case was remanded to the commission for a hearing de novo on August 25, 1939. Further extensive hearings were held. The commission issued a report and order on November 7, 1940, affirming its former decision. After denial of a petition for rehearing the plaintiffs above petitioned the Supreme Court of Utah on December 27, 1941, for a review of the commission's order. The court had not handed down a decision at the closing date of this report.

UTAH LIGHT AND TRACTION COMPANY, PLAINTIFF, VS.  
PUBLIC SERVICE COMMISSION OF UTAH AND AIR-  
WAY MOTOR COACH LINES, INC., DEFENDANTS.

(Supreme Court No. 6255)

The circumstances leading up to this case were outlined in the last previous annual report of the commission. The court's opinion had not been handed down at the closing date of this report.

#### **Costs of Operation of Commission**

The commission expended a total of \$68,672.49 during the fiscal year covered by this report in performing the functions of its office. This figure includes all expenditures for personal services, operating expenses, travel, and capital outlay.

A total of \$54,467.88 was expended from the general fund appropriation and \$14,204.61 out of the motor transport fund. Three-fourths of the general fund appropriation is provided by an assessment against the public utilities under the commission's jurisdiction and one-fourth is appropriated from the general fund of the state. The appropriation to the motor transport fund comes from the motor vehicle registration fund.

Further details of the commission's expenditures may be found in Table No. 19, Appendix II.
