Hello,

I've read through the proposed UUSF surcharge increase notice - [329895NtcPrpsdRuleAmndmnt9-19-2023.pdf](#) ([utah.gov](http://utah.gov)). The notice states that public comment is due by December 15, 2023, but also states that the rule change may become effective on December 29<sup>th</sup>. We're trying to ensure compliance with the potential surcharge increase, but the turnaround time is very quick.

If the Public Service Commission decides to move forward with the surcharge increase after the public comment period on the 15<sup>th</sup>, will telecommunications companies be expected to remit the new 71 cent surcharge for the month of January?

Please let me know as soon as you can so that we can properly comply with any potential change.

Thank you,

Carlos Anguiano
