RE: Docket No. 00-035-T01 - In the Matter of the Approval of Tariff P.S.C.U. No. 42, Re: Proposed Schedule 70 - Tariff Revisions Attributable to the Recently Approved Merger between PacifiCorp and Scottish Power in Docket No. 98-2035-04

Dear Ms. Meyer:

On April 1, 2013, Rocky Mountain Power (Company) filed its 2012 Annual Report of the Blue Sky Program (Report) with the Public Service Commission of Utah (Commission). Comments on the Report were provided by the Utah Division of Public Utilities (Division) and by HEAL Utah. The Commission appreciates these comments.

The Division of Public Utilities (Division) notes an inconsistency in the ending and starting available fund balances in the 2011 and 2012 Annual Reports, respectively. Additionally, the Division observes the 2012 Annual Report contains some negative program costs. The Company provided to the Division, clarification for these inconsistencies through an informal request. The Division recommends when funds are refunded on a project but the project is funded again in a subsequent year, the Company include the project as part of the Community Projects Awarded on the Available Fund Projects TAB with an explanation for the funding in the future. Also in future reports they request the Commission require the Company to provide documentation, footnotes, or some other appropriate means to better explain negative program costs. The Division concludes the Report is in compliance with Commission Orders and adheres to the Commission's reporting requirements.

Commissioner

The Commission has reviewed the Company's Report and the Division's recommendations and acknowledges the Report complies with the Commission's prior orders on the Report. The Company shall incorporate the Division's recommendations in all future annual reports on the Blue Sky Program.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
