

Dammeron Corporation  
1 Dammeron Valley Dr E  
Dammeron Valley, Utah 84783

Attention Carol Thorpe

Re: Request for information

Dear Ms. Thorpe:

At the November 29, 2005 technical conference that was held at the Utah Commission in Salt Lake City, you provided data pertaining to the telemetry system you had installed to monitor the voltage on your water pump equipment. At the meeting Dennis Hansen, Principal Engineer for Utah Power requested the make and model information of the telemetry system which would help all interested parties determine the reporting capabilities of the system. You stated you would e-mail that information and e-mail addresses were provided. As we had not received information, on December 12, 2005, I sent you an e-mail asking for information, to date the company has not received a response from you.

May we have the make and model of the telemetry system you have installed at your pump sites in Dammeron Valley. If you would please either e-mail the information to [prestine.tafoya@Pacifcorp.com](mailto:prestine.tafoya@Pacifcorp.com) or you can call me at 801-220-4149. Your attention to this matter would be greatly appreciated.

Regards,

Prestine Tafoya  
Customer & Regulatory Liaison

Cc: Steve Goodwill, Utah Commission
