Ref: Docket No. 03-035-14. Rocky Mountain Power, Quarterly Compliance Filing

On November 28, 2007, the Commission issued an Action Request to the Division to review issues associated with the Company's Quarterly Compliance Filing/Avoided Cost Input Changes. As a result of technical problems with GRID access, additional data review needs, and unresolved questions, several aspects of the action request could not be accurately verified at this time. Consequently, the Division is requesting that the Commission extend the due date of the Division response to its Action Request to February 5, 2008 so that the Division can conduct a complete and thorough analysis.
