Commission Secretary

**Re: Docket No. 03-035-14 – Quarterly Compliance Filing – 2009.Q3 Supplemental
Avoided Cost Input Changes**

Commission Orders dated October 31, 2005 and February 2, 2006 in Case No. 03-035-14 state that the Company is required to keep a record of any changes, including data inputs, made to the Proxy and GRID models used in calculating avoided costs. The Orders further require the Company to notify the Commission and Division of Public Utilities of updates made to the models used in the approved Proxy and Partial Displacement Differential Revenue Requirement (PDDRR) avoided cost methodologies.

This filing reports supplemental changes since the Company's 2009.Q3 filing on October 27, 2009, in Case No. 03-035-14.

PacifiCorp (dba Rocky Mountain Power) hereby respectfully submits an original of this compliance filing to address this requirement. An electronic copy of this filing will be provided to mlivingston@utah.gov. Additional detail is provided below:

1. Proxy Wind Resource

The company's most recently RFP wind resource is Top of the World Wind; a 200 MW 35% capacity factor wind resource located in Converse County, Wyoming, which will be paid a levelized price of \$66.00/MWH and which is scheduled to be on-line by the end of 2010. The company proposes to update the avoided cost "proxy" wind resource from Three Buttes Wind to Top of the World Wind. **Appendix A** provides updated wind resource pricing based on Top of the World Wind.
