Re: Past Due Utah Pole Attachment Invoices.

Mr. O'Hare:

In a letter dated February 20, 2004, Comcast was notified of the past due status of several invoices totaling approximately \$2.0 million, which is a default under Comcast's Letter Agreement with PacifiCorp, dated September 8, 2003. In order to avoid discontinuation of PacifiCorp's processing of applications from Comcast for pole attachments within the state of Utah, Comcast was notified that payment in full was due by March 1, 2004.

To date, PacifiCorp has not received any form of payment on these past due amounts and is notifying Comcast that all requests for pole attachments will no longer be processed until such time that payment is received in full. All work performed by Comcast, its agents or contractors on PacifiCorp poles is considered to be unauthorized and subject to penalties.

If Comcast has provided payment for the past due amounts in accordance with the previous notification, please contact me immediately at (503) 813-6144.

Respectfully,

A handwritten signature in black ink that reads "Corey Fitz Gerald".
