Joint Use
TCI Cablevision of Utah
P.O. Box 2027
Provo, UT 84603

Joint Use:

PacifiCorp Joint Use of Facilities would like to invite you to meet with us in person to discuss any issues, concerns or questions that you might have in regards to joint use.

Attached is list of locations that I will be visiting over the next few months. You are more than welcome to attend any of these meetings at any location. If you have personnel in your company that you feel might be interested in attending any of these meetings please pass the word along and ask them to call me.

This is also an opportunity for all the utilities to get together and discuss the new standard agreements that were sent out this year by PacifiCorp. If you did not receive one I will have a copy of your company's agreement at the meeting or you may call me and I would be happy to send you one ahead of time for your review. Several of the agreements have already been executed and are effective immediately; some are still in negotiations. Regardless of what stage your company's agreement is in, we welcome the opportunity to discuss changes with the contract administrators and answer questions for all other company representatives.

I would also like to hear about any local concerns you may have in the area of joint use or any questions you might have about changes in pole work billings or the upcoming system-wide inventory that will be conducted by a contractor of PacifiCorp.

This will be an informal meeting consisting of a short, but detailed explanation of the new contract terms and followed by a question and answer session. Operations Managers of PacifiCorp have been invited to attend to assist in answering local questions, addressing local issues and to hear your comments first hand.

If for any reason, you cannot attend one of these scheduled meetings or if you would like to have a separate meeting from the rest of the companies to discuss your company's concerns or relationship with PacifiCorp, please don't hesitate to call me. In most cases, I will be in the area for at least 2 days and I will do what I can to accommodate you.

If you were sent originals or a draft for review of the new standard agreement and you would like to discuss revisions, please call me to set up an appointment at any of these locations (or other locations if necessary).

Thank you so much for your time and I look forward to meeting you. I will need a response before July 1, 1996 if you plan to attend any of these sessions. If I have not received any response from a specific location the meeting will be canceled so please be sure to call or fax me if you plan on attending. My phone number is (503) 464-5341 and my fax number is (503) 275-2713 or (503) 275-2632.

Thank you so much for your time and I look forward to meeting you. I will need a response before July 1, 1996 if you plan to attend any of these sessions. If I have not received any response from a specific location the meeting will be canceled so please be sure to call or fax me if you plan on attending. My phone number is (503) 464-5341 and my fax number is (503) 275-2713 or (503) 275-2632.

Respectfully,

Corey A. Cook

Tim Rehm
TCI Cablevision
126 W. Poplar
Walla Walla, WA 99362

Tim:

PacifiCorp Joint Use of Facilities would like to invite you to meet with us in person to discuss any issues, concerns or questions that you might have in regards to joint use.

Attached is list of locations that I will be visiting over the next few months. You are more than welcome to attend any of these meetings at any location. If you have personnel in your company that you feel might be interested in attending any of these meetings please pass the word along and ask them to call me.

This is also an opportunity for all the utilities to get together and discuss the new standard agreements that were sent out this year by PacifiCorp. If you did not receive one I will have a copy of your company's agreement at the meeting or you may call me and I would be happy to send you one ahead of time for your review. Several of the agreements have already been executed and are effective immediately; some are still in negotiations. Regardless of what stage your company's agreement is in, we welcome the opportunity to discuss changes with the contract administrators and answer questions for all other company representatives.

I would also like to hear about any local concerns you may have in the area of joint use or any questions you might have about changes in pole work billings or the upcoming system-wide inventory that will be conducted by a contractor of PacifiCorp.

This will be an informal meeting consisting of a short, but detailed explanation of the new contract terms and followed by a question and answer session. Operations Managers of PacifiCorp have been invited to attend to assist in answering local questions, addressing local issues and to hear your comments first hand.

If for any reason, you cannot attend one of these scheduled meetings or if you would like to have a separate meeting from the rest of the companies to discuss your company's concerns or relationship with PacifiCorp, please don't hesitate to call me. In most cases, I will be in the area for at least 2 days and I will do what I can to accommodate you.

If you were sent originals or a draft for review of the new standard agreement and you would like to discuss revisions, please call me to set up an appointment at any of these locations (or other locations if necessary).

Utah Power's Park City district office will be hosting a utility meeting on May 14th, 1997 at 8:00a.m. to discuss Joint Use of Facilities issues and concerns. The Park City District Operations Manager, Keith Jacobsen, will be present to discuss any local concerns you may have. I will also be present to address any questions that you may have in regards to the provisions of the new agreements and PacifiCorp's operating procedures in regards to Joint Use. If you have not had the opportunity to review the new Joint Use agreements please feel free to call me and I will send you a copy before the meeting.

The meeting will be held in the Utah Power Service Center at 4115 Atkinson Ave. in Park City. Please call me at (503) 464-5341 and let me know if you or a representative of your company will be attending. Your response would be greatly appreciated by May 12th so that I may confirm my travel arrangements. We look forward to seeing you there.
