Marty & Sheryl,  
Any additional equipment attached to a pole still needs an application to attach- this does include overlashes. Just for reference, it is in your contract under section 2.3. Sheryl, I think it is in the section I faxed to you. If not, let me know if you need a copy of it.

Please let me know if you have any more questions about this.

have a great day!

**Subject:** Pole Attachments

Hi Sara,

Sheryl and I were wondering about pole attachments and the rules/procedure/requirements for overlashing on existing aerial lines in place.

Do we need to submit pole attachments on every line we overlash to? Could let us know the proper procedure so that we can follow it as we go forward? We can also notify all of our contractors of the procedures once in place.

I appreciate your help and time greatly.

Yours truly,

Marty Pollock
