Subject: Procedure for Power Supply Attachments

Hi Marty,

Thanks for the call this morning. I knew the process was in transition, and it still is, but I was not aware that the process had taken affect, and at this point *this process may change again*.

First of all Norma or I will be your contacts for Utah.

1. AT&T/Comcast will send the Joint Use Department at PacifiCorp an attachment request for approval. (JPN#)
2. After AT&T is approved to attach, we will contact you, and AT&T will attach.
3. *Here's the change*. After AT&T completes the installation of the attachment. AT&T needs to contact us (Norma or I) and verify that the attachment has been completed.
4. PacifiCorp will perform a post-inspection. After we have received notification from the post-inspection that the installation is correct, Norma or I will contact the Business Center to initiate the work request to *activate* the power supply.
5. The Business Center will contact AT&T for account information.
6. We will then contact AT&T with confirmation that power is activated.

Marty, I hope this process will simplify your work.
