Chairman Richard M. Campbell  
Utah Public Service Commission  
400 Heber M. Wells Bldg.  
160 East 300 South  
Salt Lake City, UT 84111

Dear Chairman Campbell:

The Division, the Committee, Questar, PacifiCorp and the UAE (the "Parties") are members of the test year task force created by the Commission in Docket No. 04-035-42. That task force is focused primarily on test year issues, but a related area currently under analysis by the task force involves the development, if appropriate, of rules, which may be different for different types of utilities, to specify the information and documents that a utility must file in connection with a general rate case.

In order to provide the appropriate focus on that area, the Parties request that the Commission establish a subgroup of the task force with the specific responsibility to develop and propose rules for filing requirements. We suggest that the Commission appoint Lowell Alt as Chairman of the subgroup and that the Commission direct the subgroup to provide a report of its proposals by December 15, 2005.

Very truly yours,

Edward A. Hunter  
Stoel Rives LLP  
For PacifiCorp

Barrie L. McKay  
Questar Gas Company
