ISSUED: October 26, 2007

By the Commission:

By Motion submitted October 2, 2007, Pacificorp requested permission to amend its Request for Proposals for a generating resource previously filed March 26, 2007 and approved by the Commission on April 4, 2007. Pacificorp filed a supporting memorandum October 16, 2007, which provides information concerning the reasons Pacificorp seeks to amend and the amendments proposed. The supporting memorandum was submitted pursuant to the additional protective terms provided in our Revised Protective Order issued in this docket. The Motion requests Commission authorization to amend the 2012 request for proposals with respect to the following: (1) to modify the schedule in Section 2, whereby the proposal response date would change from June 19, 2007 to January 18, 2008, permitting new and existing bidders an opportunity to submit new bids or refresh their existing bids; (2) to eliminate the upfront request for qualifications procedure and instead, require submission of an intent to bid form; to modify the qualification requirements so that new bidders will be required to submit qualification appendices with their bids and existing bidders will only need to update qualification appendices if information has changed; and to only require bidders (new and existing) to post acceptable commitment letters or letters of credit within ten business days following notification of their
