Company may also
retain from any payment sufficient funds to settle pursuant to this Contract any Liquidated Damages due Company by Contractor and retain from any payment sufficient funds to discharge any delinquent accounts of Contractor for which Liens on Company's property have been or can be filed that have not been cleared or a bond provided by Contractor in accordance with Section 19.6(f) (“Marking of Equipment and Plant”), and Company may at any time and from time to time pay therefrom for Contractor's account such amounts as are, in the commercially reasonable opinion of Company, due thereon, including any sums due under any Applicable Law.

Without prejudice to the foregoing, Contractor shall notify Company’s Representative of its intention to incorporate any existing foundations, structures, Work, equipment or materials into the Work other than those specifically identified in the Contract as soon as is practicable and seek the prior written consent of Company’s Representative to the use or utilization thereof, which consent may be withheld in the sole discretion of Company’s Representative.

Such Work shall be performed in accordance with all Applicable Law, Permits, consents and licenses, and without inconvenience to third parties. Contractor explicitly agrees and acknowledges that full consideration and payment for the satisfactory completion of the Work includes all necessary labor hours inclusive of Work during night, weekends and holidays and explicitly agrees and acknowledges that Contractor shall not file Change Orders because of the need to attract labor to perform Work at night, weekends or on holidays.

(c) Notwithstanding any other provision of this Section, if Defects are uncovered, Company shall be entitled to either accept the defective Work or to accept them only partially remedied and, provided that Contractor has had a reasonable opportunity to remedy the Defects (except where such work has been deliberately concealed by Contractor) the Contract Price shall be reduced by an amount mutually agreed by Company and Contractor, and in the absence of such agreement, an amount as is determined pursuant to the provisions of article 31 (“Claims, Claim Notice and Dispute Resolution”).

Section 9.7 Fencing, Protection, Lighting

(c) Contractor and its employees shall review the MSDS of the appropriate hazardous chemicals, and follow the requirements of the OSHA Hazard Communication Standard.

PROJECT SCHEDULE

Section 10.1 Project Schedule

Attached hereto as Exhibit C is a preliminary general project timetable setting forth the major tasks that must be completed by Contractor (each a “Milestone”) and completion dates for such tasks (“Milestone Completion Dates”) as provided by Contractor in accordance with the Specification. One such Milestone is the final approval by both parties of a more detailed project timetable (the “Project Schedule”) setting forth in more detail Milestones and Milestone Completion Dates, including all design, development and other Milestones to be achieved. In the event that the Notice to Proceed is delayed, within thirty (30) Days from the date of the Notice to Proceed, Contractor shall submit to Company’s Representative an updated version of the Project Schedule for the approval of Company’s Representative.

Section 10.2 Form of Project Schedule

The Project Schedule shall be in form and content acceptable to Company. Such Project Schedule shall specify any tasks, obligations, or responsibilities (each a “Company Obligation”) which Company must perform or fulfill in order for Contractor to achieve the Milestone Completion Dates for each Milestone, and the date by which Company is to fulfill each and every Company Obligation.

Section 10.3 Rejection of the Project Schedule

(a) Company’s Representative shall have the right to reasonably reject, vary, amend, substitute or otherwise change the Project Schedule prior to approval thereof. Any such variation, amendment, substitution, or other change (other than a rejection) shall be considered a Company-Initiated Change under Section 13.1 (“Changes”).

(b) If, under Section 10.3(a), Company’s Representative rejects any Project Schedule submitted by Contractor, Contractor shall, within seven (7) days of such rejection, submit four (4) copies of the final form of a revised Project Schedule for approval by Company’s Representative and of the Project Schedule.

Section 10.4 Alterations to Project Schedule

Contractor shall not, without the prior written consent of Company’s Representative, make any material alteration to the Project Schedule.

Section 10.5 Revision of Project Schedule

If Company or Company’s Representative determines, each in its sole discretion, that progress of the Work does not or is unlikely to match the Project Schedule, or otherwise to enable the Work to be completed by the Time for Completion, Company’s Representative may order Contractor to revise the Project Schedule. Contractor shall thereafter revise the Project Schedule to show the modifications necessary to ensure completion of the Work within the Time for Completion. Contractor shall notify
Company’s Representative as soon as possible of any circumstances of which Contractor is or becomes aware which might result in progress not matching the Project Schedule.

Section 10.6 Contractor’s Responsibility to Comply with Milestone Completion Dates

Contractor shall undertake sole and complete responsibility to complete and to commit sufficient manpower and resources to insure the completion of each Milestone by the appropriate Milestone Completion Date.

Section 10.7 Rate of Progress

(a) Company’s Representative shall notify Contractor if Company’s Representative decides that the rate of progress of the Work is, in its opinion, too slow to meet the Time for Completion due to a circumstance for which Contractor is entitled to an extension of the Time for Completion under the provisions of this Contract.

(b) Following receipt of such a notice Contractor shall at its own cost take such steps as may be necessary and as Company’s Representative may approve to remedy or mitigate the likely delay, including revision of the Project Schedule. Contractor shall not be entitled to any additional payment or additional Cost or any increase in the Contract Price for taking such steps.

Section 10.8 Progress Reports

(a) Contractor shall submit to Company’s Representative on the third (3rd) working day of each month or such other date as is agreed upon between Contractor and Company, a progress report (“Progress Report”) in compliance with the requirements set forth in the Specification. Contractor shall submit two (2) copies of each Progress Report to Company’s Representative.

(b) The written progress reports submitted by Contractor shall specify in detail:

(i) any problem or circumstance (each a “Project Problem”) encountered by Contractor during the preceding month (including without limitation the failure of Company to perform any Company Obligations under the Contract or the inadequacy of any such performance by Company) which might (A) prevent Contractor from completing any Milestone by its Milestone Completion Date or (B) cause Contractor to incur additional expenses in completing any Milestones;

(ii) the estimated length of any delay and the estimated amount of any additional expenses, if any, which may be chargeable to Company hereunder, as a result of any Project Problem identified pursuant to the Contract, and

(iii) to the best of Contractor’s knowledge, after due inquiry and analysis, the cause of any Project Problem specified pursuant to the Contract and the specific steps taken or proposed to be taken by Contractor to correct such problem.

(c) In the event that Contractor fails to specify in writing any Project Problem (an “Unidentified Project Problem”) with respect to a given monthly period in the appropriate report and in such manner and at such time as specified pursuant to the Contract as a Project Problem, Contractor
shall not be entitled to rely on any such Unidentified Project Problem as a purported justification for either (i) claiming that it is entitled to receive any additional amounts pursuant to the Contract (including without limitation, damages arising out of any alleged failure by Company to perform any of Company Obligations) or (ii) failing to complete any Milestone by the specified Milestone Completion Date.

(d) The submission by Contractor of any Progress Report shall not alter, amend or modify Contractor’s or Company’s rights or obligations pursuant to this Contract, including the Contract Price. In the event and to the extent any Milestone is not completed by the specified Milestone Completion Date as a direct and unavoidable result of Company’s failure (other than as a result of Contractor’s failure to perform any of its obligations on a timely basis) to fulfill any Company Obligation by its respective completion date, then the Milestone Completion Date for such Milestone shall be extended by one (1) day for each day in which completion of any such Company Obligation is delayed beyond its respective completion date and all extra costs actually incurred by Contractor by reason of such delay shall be paid by Company, unless the delay in completing any Company obligation results from Contractor’s failure to perform any of its obligations on a timely basis.

Section 10.9  Progress Meetings

Progress meetings will be held as deemed necessary by Company, but normally shall not be less than once a week. Such meetings shall be at Company Site unless Company requests to change the location of such meetings. Progress meetings will be utilized to review the Work schedule and discuss any delays, unusual conditions or critical items, which have affected or could affect the progress of the Work.

(c) Prior to the shipment of any Equipment, Contractor shall become knowledgeable of transportation conditions, such as clearances and restrictions, height and width, bridge load limits and other limitations affecting such shipment. Notwithstanding any other provision of this Contract, any limitations or the lack of transportation facilities shall not become the basis for Claims or damages, or for an extension of time for completion of Work under this Contract.

**Section 11.3 Transportation**

Contractor shall observe all Applicable Law in relation to and obtain all necessary consents and permissions for the transport of Plant, Equipment and Contractor’s Equipment over highways, bridges or culverts and shall indemnify Company against all claims for the repair of any such highways, bridges or culverts arising out of the execution of the Work and in respect of all proceedings, damages, costs, charges and expenses arising out of or in connection with such transportation.

**Section 12.2 Contractor’s Equipment on Site**

All Contractor Equipment shall, when brought on to the Site, be deemed to be exclusively intended for the execution of the Work. Contractor shall not thereafter remove the same or any part thereof from the Site without the consent of Company, which shall not be unreasonably withheld in the case of Contractor’s Equipment not currently required for the execution of the Work on Site.

**Loss or Damage to Contractor’s Equipment**
Contractor shall be liable for loss or damage to any of Contractor’s Equipment which may occur otherwise than through the default of Company or those for whom Company is responsible.

Section 12.3 Maintenance of Contractor’s Equipment

ARTICLE 13

CHANGE ORDERS

Section 13.1 Changes

(a) From time to time circumstances may arise which justify a Change.

(b) No Change shall be effective unless authorized by Company by issuance of a Change Order pursuant to the provisions of this Article 13.

(c) Company shall, when reviewing each potential Change and determining the nature and extent of any Change Order which is to be granted in accordance with the subsequent paragraphs of this Article, consider in detail the following information:

(i) The nature, scope and extent of the Change, including but not limited to any additions or deletions from the Scope of Work;

(ii) The effect, if any, of the Change on the Project Schedule or on the Guaranteed Substantial Completion Date(s), as applicable;

(iii) The effect, if any, of the Change on the amount the Contract Price; provided, however, that in no event shall the amount of the Contract Price be subject to change for any Change that does not constitute a material change in the Scope of Work requested by Company; and

(iv) Such other information as may reasonably be necessary for the implementation of the Change Order, including but not limited to the effect on any other provisions hereof which may be impacted by the Change.

Company shall, in the case of an Company-Initiated Change or, if it elects to do so, in the case of Contractor Initiated Changes, and in all events in the case of Required Changes, thereafter issue such Change Order having regard to all such circumstances as is just and equitable and in a form substantially similar to the Change Order Form attached hereto as Exhibit D-1 which shall address, to the extent required, all of the issues set out in this Section 13.1(c).

(d) In the case of any request for a Change Order which is permitted to be made in accordance with this Contract, it shall take the form of a Change Order Request (each a “Change Order Request”) which shall be delivered to Company in writing as soon as possible and in any event within ten (10) days after Contractor becomes aware of the circumstances which it believes (or through the
exercise of Best Recognized Practice should believe) necessitates a Change. In no case shall Contractor be entitled to recover costs as a Change Order in connection with conditions that give rise to such Change Order arising prior the date on which Contractor requests the Change Order, except to the extent that such costs are incurred reasonably and properly in order to achieve the Guaranteed Completion Dates. Any Change Order Request shall be in a form substantially similar to the Form of Change Order Request attached hereto as Exhibit D-2 and comprising the following information: (a) the factors necessitating or the basis for the Change; (b) the impact, if any, which the proposed Change is likely to have on the Contract Price; (c) the impact, if any, which the proposed Change is likely to have on the Project Schedule (including the Guaranteed Substantial Completion Date); (d) other impacted provisions hereof; and (e) such other information which Company may reasonably request in connection with such proposed Change.

(e) The issuance of a Change Order shall not result in invalidation of this Contract.

(f) Except with respect to a Company Initiated Change, as to which the disregarded amount shall be $25,000, no circumstances will constitute grounds for a Required Change Order or a Contractor Initiated Change Order unless and to the extent that (i) the costs of such Change Order, in either case, is in excess of $5,000, or (ii) the effect of such Change Order request impairs the achievement of an Company Critical Schedule Milestone or a Contractor Critical Schedule Milestone, as applicable, by more than 3 days (except in circumstances where Contractor has no means of recovering such schedule impairment in which case Contractor shall be entitled to a Change Order if Contractor would otherwise have been so entitled). Neither party shall game or otherwise manipulate the foregoing process, by aggregating or disaggregating cost and/or circumstances as the case may be (or otherwise), for the purpose of recovering or avoiding additional cost or time in accordance with the foregoing.

(g) Change Orders (in each case in excess of the applicable disregarded amount) shall address the change, if any, in the amount of the Contract Price in one of the following manners:

(i) Company and Contractor shall agree upon the amount by which the Change will impact the Contract Price; or

(ii) Company and Contractor shall agree as to the nature and extent of the Change, but in lieu of changing the Contract Price, Contractor shall perform the activities associated with the Change on a cost-reimbursement basis, in which event no change shall be made in the amount of the Contract Price.

Section 13.2 Procedure for Changes

(a) Changes Initiated by Contractor. Contractor may, at any time and from time to time, make proposals to Company for improvements, efficiencies, cost savings and other similar Changes to the Work (each a “Contractor-Initiated Change”), but no such proposal shall be carried out by Contractor except as instructed in writing by Company in the form of a Change Order, which Company may in its discretion elect to issue as it sees fit. Such proposals of Contractor shall be submitted in the form of a written Change Order Request in the manner substantially as set out in 13.1(d), and shall also contain and be supplemented with such information or additional information as
Company may reasonably require in order to effect a reasoned decision as to the implementation, or rejection, (as the case may be) of the Change Order Request.

(b) Changes Initiated by Company. If Company desires to make a Change (each a “Company-Initiated Change”) not comprising rectification or recovery Work due to Contractor’s negligence or breach of this Contract, Company will submit a written Change Order Notice to Contractor, substantially in the form of Exhibit D-3, comprising the nature and extent of the proposed change to the Scope of Work together with, to the extent available and/or applicable, Company’s opinion as to those matters required to be taken into account in accordance with Section 13.1 (“Changes”). Contractor will promptly review the Change Order Notice and notify Company in writing within a reasonable amount of time of the options for implementing the proposed Change (including, if possible, any option that does not involve an extension of time) and the estimated effect(s), if any, that each such option would have on the Contract Price and Project Schedule, and any other affected provision herein, as applicable. Such response shall also contain all those matters required to be set out in a Change Order Request. Based upon such information, Company may, in its sole discretion, issue a Change Order making a Change.

(c) Required Change Orders. Contractor shall be entitled to the issuance of Change Orders pursuant to Article 13 in connection with any circumstances which constitute a Change and which are attributable to the matters identified in subparagraphs (a) through (g) below (each a “Required Change”):

(i) Due to Change in Law Applicable Law/Permit or Site Condition. If and to the extent that a change in any Requirement of Law or Permit after the Effective Date or results in an increase in the cost of the Work or extends the Project Schedule, and in each case only to the extent that such increase or extension is greater than the threshold amounts identified in Section 13.1(f) above.

(ii) Change Order Due to Suspension of Work by Company. In the event that Company suspends the Work (i) in the circumstances with respect to which Contractor is entitled to a Change Order as set out in Section 13.1, or (ii) in the circumstances set out in article 16.

(iii) Change Order Due to Non-Performance by Company. If Company fails to perform or is late in performing in any material way any material obligation of Company under this Contract and the cost to Contractor is in excess of $25,000 or a delay of more than 3 days. Neither party shall game or otherwise manipulate the foregoing process, by aggregating or disaggregating cost and/or circumstances as the case may be (or otherwise), for the purpose of recovering or avoiding additional cost or time in accordance with the foregoing.

Contractor shall in all cases use or have used commercially reasonable efforts to mitigate potential delays to the Project Schedule and/or potential increases to the Contract Price (the cost of such mitigation efforts to be addressed in any applicable Change Order).

(d) Except in the circumstances as set out in this Section 13.2 and with respect to which an application is properly made in accordance with this Article 13, Contractor shall not be entitled to seek
either a Change, Change Order or extension of the Guaranteed Substantial Completion Date, nor to receive additional remuneration or reimbursement with respect to the Work.

Section 13.3 Continued Performance Pending Resolution of Disputes

Notwithstanding and pending the resolution of any dispute with respect to a Change or Change Order, Contractor must proceed with the Work and the performance of any Change ordered by Company or any Required Change, unless Company directs Contractor not to so proceed, provided that Contractor is being paid on a current basis for all undisputed Work and for all disputed Work which has been ordered to be paid through a Claim proceeding dispute resolution relating thereto in accordance with this Contract.

Section 13.4 Preservation of Schedule and Contract Price

Where any proposed Change or Change Order Request may give rise to an extension of any of the Project Schedule or an increase in the Contract Price, then Company reserves, in its sole discretion and to the extent possible, the right to require Contractor to vary, amend or effect such other Change to the Work in such a manner as will mitigate or avoid the requirement for such extension of time or increase in price.

ARTICLE 14

WORKMANSHIP AND MATERIALS

Section 14.1 Manner of Execution

The Work to be supplied, including all materials, manufactured components and labor and services to be performed, shall be designed and executed in the manner set out in this Contract. Except where the manner of design, manufacture and execution is otherwise specifically set out in this Contract, the Work shall be designed and executed in a proper and workmanlike manner, all in accordance with accepted industry standards and Prudent Industry Practice.

Section 14.2 Condition of Materials

The materials, Equipment (including any rented Equipment), fixtures, software, any related items of personal property and other tangible personal property of Contractor, any Subcontractor or Contractor constituting the Project shall be OEM Certified, and shall be suitable for their current use in the generation of energy and the transportation of natural gas in accordance with the Specifications. All Equipment shall be procured solely for use in connection with the Project. Company which shall include locations where the Equipment shall be manufactured or tested and the location at which such tests and inspections can be viewed by Company. Contractor shall provide no less than three (3) Business Days’ advance confirmation of the actual date of each Witness Point Event identified on the Witness Point Schedule. Company shall be entitled to attend and witness all Witness Point Events. To the extent that any Witness Point Events have been completed prior to the date on which the Witness Point Schedule is submitted to Company, at Company’s sole discretion, Contractor shall (i) allow Company to observe the materials and workmanship of the Project and to review documentation which may be available in lieu of viewing or witnessing the Witness Point Event, or (ii) re-open the affected portion of the Project for inspection by Company and repair or correct (if necessary) and restore the affected portion of the Project at no additional cost to Company. All inspections shall take place on the Site, on a Contractor’s or a Subcontractor’s premises or such other reasonable site as the Parties may agree, as appropriate, during normal working hours. No such inspection or examination or witnessing of tests shall release Contractor from any obligation or liability under this Contract. Inspections under this Section 14.3 are solely for the benefit of Company and any inspection or failure to inspect and any objection or failure to object by Company shall not (i) relieve Contractor or any Contractor of any of their obligations under any Project Document or (ii) be used as evidence that Company agreed that either or both of Contractor or any Subcontractor had fulfilled any obligations under any Project Document or that Company had waived any of its rights under any Project Document.

(b) If, as a result of an inspection or examination referred to in paragraph (a) above, Company decides that any portion of the Work is nonconforming or otherwise not in accordance with this Contract, Company shall promptly notify Contractor thereof. Such notice shall state Company’s objections and its reasons therefor in reasonable detail. Contractor shall make good the nonconformity or ensure that any such portion of the Work complies with this Contract at no additional cost to Company.

(c) For purposes hereof, “nonconforming” means defective or not in conformity with the Specification.

ARTICLE 15

(a) Following receipt and approval of the Project Schedule, Contractor shall prepare a contract documentation and drawing list identifying those key data, calculations (as required for regulatory purposes and consents), drawings, technical specifications and concepts required for review for conformance with the Contract.

(b) Contractor shall, within the time detailed in the Project Schedule or elsewhere in this Contract, submit to Company’s Representative in hard copy and electronic form (the specific form of which shall be agreed to by the Parties) such key data, calculations, drawings, technical specifications and concepts.
(c) Contractor shall timely submit to Company’s Representative drawings of temporary and permanent buildings and structures and any other information required under the terms and conditions of consents, licenses and planning permissions obtained by Contractor or Company.

(d) Company’s Representative may, in its sole discretion, disapprove any drawing; provided, however, it shall notify Contractor of any such disapproval within twenty (20) days of receipt, except for documents and information (including calculations) which are required by Company’s Representative for consultation with Company’s third party contractors for the purposes of the interconnections at terminal points, where the period shall be thirty (30) days. Contractor shall supply additional copies of documents or information (including calculations) in the form and numbers stated in the Contract. Without waiver of or prejudice to any rights of Company, Contractor shall bear all risk in relation to its performance of work arising from or in relation to all documents or information (including calculations).

Section 15.2 Consequences of Documents not in accordance with Contract

Any documents or information (including calculations) which Company’s Representative identifies as not being in accordance with the Contract shall be modified and resubmitted without delay.

Section 15.3 Drawings Submitted

Contractor shall not deviate from drawings accepted by Company or issued by Contractor as approved for construction, except with the prior written consent of Company.

Section 15.4 Inspection of Drawings

Contractor shall maintain and provide to Company’s Representative from time to time or upon request a complete list of drawings identifying which is approved for construction. Company shall have the right at all reasonable times to inspect all drawings of any part of the Work.

Section 15.5 Operating and Maintenance Instructions

(a) Not less than six (6) months prior to the scheduled Guaranteed Substantial Completion Date, Contractor shall deliver to Company’s Representative one (1) set of preliminary operating and maintenance manuals sufficiently complete that the Plant and Equipment may be safely commissioned and Company’s personnel properly trained pursuant to Section 7.11 (“Training”). Contractor’s Material Adverse Change prior to the Transfer of Possession and Control of Project to Company Date, Contractor shall provide to Company such information including copy drawings and Draft Manuals as is reasonable and as is necessary for Company to complete, use and maintain the Work.

(d) Where the employment of Contractor is terminated for convenience, Contractor shall provide to Company such information, including copy drawings and Draft Manuals, in the state of completion at the date of such termination.

(e) The provision by Contractor of the final operation and maintenance manuals and drawings of the Work as-built in accordance with the provisions of this Section shall be identified as a Milestone in Appendix C and the provisions of article 10 shall apply.

Section 15.6 Company’s Use of Drawings

(a) Drawings and information created by Contractor for purposes of designing, developing, constructing, commissioning and operating the Project constitute “work made for hire,” and Contractor hereby transfers and assigns all rights in and to such drawings and information to Company.

(b) Drawings and information supplied by Contractor that are not created by Contractor specifically for or in connection with the Project, but that are necessary or useful for the operation and maintenance of the Project, the Work or any portion of them, may be used by Company for the purposes of completing, maintaining, operating, improving, adapting, renewing, enlarging, dismantling, re-assembly, adjusting and repairing the Work, and for any other legal purpose, pursuant to the license granted in Section 15.6.

(c) Contractor grants to Company an irrevocable perpetual royalty free license to use all drawings and information for the foregoing purposes and Contractor shall provide Company with copies of such drawings and information.

Section 15.7 Manufacturing Drawings

Company shall have the right, upon reasonable advance written notice to Contractor, to inspect and audit Contractor’s books and records in order to verify the accuracy of and/or to determine the amount of any cost-based reimbursement associated with any suspension of the Work.

(e) Contractor shall not be entitled to be paid any additional amounts under this article 16 if and to the extent suspension is necessary by reason of default on the part of Contractor or persons for whom Contractor is responsible or for the proper execution or the safety of the Work, Equipment or Plant.

(i) if such tests require any change in Company’s dispatch schedule for the Project, then Contractor shall reimburse Company for all costs and Claims associated with such change in dispatch;

(ii) if such tests damage the Project in any way, then Contractor shall bear all costs of making good such damage and of all Claims resulting from such damage; and

(iii) if such test may cause the Project to no longer meet the Performance Guarantees, then Contractor shall, at its sole cost, re-conduct the Performance Tests and compensate Company for all costs and Claims associated with reconducting the Performance Tests.

(b) Company shall have the exclusive right to all electric energy generated by the Plant during any Performance Tests.

Section 17.6 Timing

Contractor shall give Company at least ninety (90) days’ prior notice of the date on which the first Performance Tests will begin and at least five (5) days’ prior notice of a change in the Performance Test schedule. Within fifteen (15) days of receipt of such documentation from Contractor, Company shall either (i) accept the Performance Test results or (ii) state it disputes the results of the Performance Tests and the reasons therefor. If Company disputes the accuracy of the Performance Tests results in the Final Performance Test Report, then Contractor shall re-perform the applicable Performance Tests (or part thereof) in accordance with the procedures set forth in Appendix H. If the results of the re-test confirm the accuracy of the initial test, then
Company shall pay the increased costs directly resulting from the re-test. If the results of the re-test do not confirm the accuracy of the initial test, then Contractor shall pay for the costs of the re-test and any subsequent tests necessary to confirm compliance with all Performance Guarantees.

Section 17.8 Failure on Tests or Inspection

If after inspection, examination or witnessing the testing of any of the Work, Company decides, in its sole discretion, that such Work or any part thereof is defective or not in accordance with the Contract, it may reject the said Work or part thereof by giving to Contractor, within ten (10) Days, notice of such rejection, stating therein the grounds upon which the said decision is based. Following any such rejection, Contractor shall replace or repair the Equipment, the Plant or part thereof rejected and re-submit the same for test or inspection in accordance with this Clause. Accordingly, the Parties expressly agree that if Contractor fails to timely complete the Project or to meet the Guaranteed Substantial Completion Date or the Performance Guarantees, any sums which would be payable under this Article 23 because of such failures are liquidated damages and not a penalty, and are fair and reasonable and any such sums represent a reasonable estimate of fair compensation for the losses that may reasonably be anticipated from such failures.

(b) The Parties agree that it will be very difficult to determine the cost to Company for late delivery of Critical Milestones; therefore, the Parties agree upon the amounts set forth below, as liquidated damages for such late delivery and not a penalty, as consideration for delay in delivery and the resulting loss of beneficial use of the Work associated with each Critical Milestone. Such amounts being Critical Milestones Liquidated Damages (“Critical Milestone LDs”).

(c) For each day of delay after the relevant Target Date in achieving any Critical Milestone, the amounts otherwise payable to Contractor pursuant to this Contract shall be reduced by $[___] per day for each day of delay beyond the relevant Target Date in achieving any Critical Milestone (“Reduction Amount”).

(d) The Reduction Amount (i) shall arise independently with respect to each such delay and (ii) shall arise independently with respect to Late Substantial Completion LDs as defined in Section 23.3. At Company’s option and in its sole discretion, Company may either require Contractor to pay to Company the Reduction Amount or may deduct the Reduction Amount from any monies subsequently payable to Contractor.
Section 23.3 Liquidated Damages for Delay in Substantial Completion

If Contractor fails to achieve Substantial Completion prior to the Substantial Completion LD Commencement Date, then commencing on the Substantial Completion LD Commencement Date, Contractor shall pay Company liquidated damages, for each day until Contractor achieves Substantial Completion, in an amount equal to (a) fifty thousand Dollars ($50,000.00) per day if the Project is Dispatchable and (b) one hundred thousand Dollars ($100,000.00) per day if the Project is not Dispatchable (collectively “Late Substantial Completion LDs”)

Contractor shall pay liquidated damages in accordance with the terms and conditions set forth in Section 14 of Appendix H as a result of the failure of the Work to achieve the Guaranteed Net Capacity, the Guaranteed Incremental Net Capacity or the Guaranteed Net Heat Rate and the Guaranteed Incremental Net Heat Rate in accordance with the Performance Guarantees. Contractor shall be granted the Cure Period to allow remedial actions to be taken to achieve the Guaranteed Net Capacity and the Guaranteed Incremental Net Capacity or the Guaranteed Net Heat Rate and the Guaranteed Incremental Net Capacity, prior to Contractor’s being liable for payment of the liquidated damages as provided in Section 14 of Appendix H.

Section 23.5 Liquidated Damages for Startup and Commissioning

(d) With regard to any Claim or Liability which is the result of the joint or concurrent fault or negligence of Contractor and Company, the Parties agree to jointly defend any Claim with respect thereto that is based on such joint or concurrent fault or negligence of Company and Contractor. Any Claim of contribution or indemnification between Company and Contractor relating to such Claims shall be resolved on the basis of the percentage of fault or negligence and the Parties agree to reserve the determination of such percentage until after resolution of such Claim. Such pro rata share shall be based upon a final judicial determination of the Parties’ comparative fault or negligence or, in the absence of such determination, by mutual agreement.

(e) Nothing in this Section 25.1 is intended to allow any Indemnified Party to be indemnified from and against any third party Claims and Liabilities caused by, arising out of, or in connection with the performance of this Contract to the extent any of such Claims or Liabilities were caused by, arose out of, or were in any way incidental to or in connection with its own negligence or intentional misconduct.

Contractor’s failure to give notice as required will constitute a waiver of all of Contractor’s rights with respect to the Claim.

(ii) As soon as practicable after Claim notification, Contractor shall submit the Claim to Company with all supporting information and documentation. Contractor shall also respond promptly to all Company inquiries about the Claim and its basis.

(iii) Any Claim which is not disposed of by mutual agreement between the Parties shall be decided by Company, which shall provide a written decision to Contractor. (b) Notification Prior to Incurring Costs. In any circumstances which might give rise to a claim pursuant to this Article, Contractor shall, before incurring any cost or expense, first give Company every opportunity to determine whether the cost or expense should be incurred or whether any act or forbearance shall or might mitigate the cost of any such claim.

If the matter is not resolved by such negotiations, either party may, by giving written notice to the other party, cause the matter to be referred to a meeting of a Company Senior Procurement Representative and Contractor’s Management Representative. Such meeting shall be held within thirty (30) days following the giving of the written notice. If the matter is not resolved within thirty (30) days after the date of the notice referring the matter to the appropriate high management or such later date as may be mutually agreed upon, the parties may then, subject to the terms of this Contract, commence legal action in court of competent jurisdiction in order to resolve the dispute.

In the event that efforts to secure confidential treatment are unsuccessful, the owning Party shall have the prior right to revise such information to minimize the disclosure of such Confidential Information in a manner consonant with its interest and the requirements of the Governmental Authority involved.

(d) Company’s disclosure of Contractor Drawings and Manuals to third parties in accordance with its obligations hereunder shall not be a breach of this Article 33.

Stack tests will be performed in accordance with the reference test methods set forth in the Air Permit. To the extent the specific test methods are not set forth in the Approval Order, then for the purposes of demonstrating the guaranteed air emissions, such air emissions shall be demonstrated by performing testing at the exhaust stack in accordance with the following United States Environmental Protection Agency (USEPA) Test Methods.
3.3 Guaranteed Sound Emissions

FAR FIELD SOUND LEVEL GUARANTEE

Plant sound emissions shall be in compliance with all applicable Requirements of Law which shall take into account baseline data from the existing plant. In the absence of a more stringent regulatory noise requirement the Seller will meet the requirements specified in Section 1.2.5 of Appendix B to the Agreement.

Appropriate corrections, in accordance with the OEM’s Sound Test Procedure Principles document and recognized industry standards, shall be made to the operating plant far field sound level measurements.
Section 4

Performance Liquidated Damages
1. **General**

Liquidated damages will be calculated for performance which fails to achieve the Performance Guarantees (i.e. less than Guaranteed Net Capacity; less than Guaranteed Incremental Net Capacity, greater than Guaranteed Net Heat Rate, greater than Guaranteed Incremental Heat Rate). Heat rates are in Higher Heating Value (HHV).

The following liquidated damage rates shall apply for deficient performance:

- Guaranteed Net Capacity (“GNCLD”) $750.00/kW
- Guaranteed Incremental Net Capacity (“GINCLD”) $250.00/kW
- Guaranteed Net Heat Rate (“GNHRLD”) $300.00/Btu/kWh/kW
- Guaranteed Incremental Net Heat Rate (“GINHRLD”) $75.00/Btu/kWh/kW

2. **Definitions**

8. Final Test Value shall mean the measured Performance Test values which are corrected to the Base Reference Conditions, without any allowance for degradation of the Equipment.

Test Tolerance (“TT”) is expressed as the decimal 0.005, applicable to the net capacity, net incremental capacity, net heat rate and the incremental heat rate. The subscript letters “C”, “IC”, “HR” and “IHR” represent net capacity, incremental net capacity, net heat rate and incremental net heat rate respectively, in the following equations.

\[ C_t = \text{The Final Test Value of net capacity when the Plant is operating on Guarantee Fuel, in kilowatts.} \]

\[ IC_t = \text{The Final Test Value of incremental net capacity when the Plant is operating on Guarantee Fuel, in kilowatts.} \]

\[ HR_t = \text{The Final Test Value of net heat rate when the Plant is operating on Guarantee Fuel, in Btu/kWh, HHV.} \]

\[ IHR_t = \text{The Final Test Value of incremental net heat rate when the Plant is operating on Guarantee Fuel, in Btu/kWh, HHV.} \]

\[ C_g = \text{The Guaranteed Net Capacity when the Plant is operating on Guarantee Fuel (Note 1), in kilowatts.} \]
ICg= The Guaranteed Incremental Net Capacity when the Plant is operating on Guarantee Fuel (Note 1), in kilowatts.

HRg= The Guaranteed Net Heat Rate when the Plant is operating on Guarantee Fuel (Note 1), in Btu/kWh, HHV.

IHRg= The Guaranteed Incremental Net Heat Rate when the Plant is operating on Guarantee Fuel (Note 1), in Btu/kWh, HHV.

Note 1: These values are the guaranteed values shown in Section 3.1 above.

3. Calculation of Liquidated Damages Relative to Net Capacity

\[( Cg – [Ct x (1+TT)]) x GNCLD = A \]

The liquidated damage amount relative to net capacity shall equal the value of A if A is positive. If A is negative, no liquidated damages are applicable.

4. Calculation of Liquidated Damages Relative the Incremental Net Capacity

\[( ICg – [ICt x (1+TT)]) x GINCLD = B \]

The liquidated damage amount relative to incremental net capacity shall equal the value of B if B is positive. If B is negative, no liquidated damages are applicable.

5. Calculation of Liquidated Damages Relative to Net Heat Rate

\[( [ HRt x (1 - TT)] –HRg ) x GNHRLD x Cg = C \]

The liquidated damage amount relative to net heat rate shall equal the value of C if C is positive. If C is negative, no liquidated damages are applicable.

6. Calculation of Liquidated Damages Relative to the Incremental Net Heat Rate

\[( [ IHRt x (1 - TT)] –IHRg ) x GINHRLD x ICg = D \]

The liquidated damage amount relative to incremental net heat rate shall equal the value of D if D is positive. If D is negative, no liquidated damages are applicable.

Section 43.3 Seller shall provide Buyer with a reasonable breakdown of costs and time to support compensation and/or adjustments to the Schedule and any other adjustments to the terms and conditions of the Agreement in connection with Change Orders performed on a time and material basis.

ARTICLE 44 Seller shall be entitled to request adjustments to the Schedule and the Guaranteed Substantial Completion Date equal to the amount of time incurred by Seller in performing the Work taking into account adjustments to the Project or to the methods or sequence of performing the Work (all as determined by Buyer) that can be reasonably taken by Seller. For Change Orders which Seller request an adjustment to the schedule or Guaranteed Substantial Completion Date, Seller will provide adequate justification of how the change order impacts the critical path of the Project Schedule.

[NAME] shall schedule and provide to PacifiCorp, at least 7 days prior to any necessary shutdown, written notice of the next upcoming outage and of any proposed changes to the outage periods set out in the Project Schedule.

[NAME] shall coordinate with PacifiCorp to balance the need to reduce these shutdown periods and to utilize other times of economic shutdown of Unit 1 to perform the required

(c) Replacement Power Costs shall be calculated as follows, and shall be payable whether or not PacifiCorp actually purchases replacement power for the applicable period as liquidated damages for the lost generation portion of damages only:

(i) If an Unscheduled Shutdown occurs during Work scheduled pursuant to Section 5.2(e)(i) while Unit 1 is operating, replacement power costs shall be calculated as the product of (1) the Dow Jones SP15 Daily Firm On-Peak Index for the day of delivery, expressed in $/MWh, multiplied by (2) the provided Hourly Scalar for each hour, multiplied by (3) the loss factor of 1.112, plus (4) the basis of $13/MWh during each hour or portion of hour of the Unscheduled Shutdown, minus (5) Unit 1’s incremental cost of generating power (i.e., the product of a given plant’s then effective net heat rate multiplied by midpoint of the Kern River, Opal Plant Platt's Daily Gas Index at the time of the Unscheduled Shutdown expressed in units of $/mmBtu)

\[
\text{Replacement Power} = (1\times2\times3+4)-5
\]

(d) After an Unscheduled Shutdown of Unit 1, any such future work that is to be performed by [NAME] or its contractors of the same or similar nature to that which caused the Unscheduled Shutdown shall proceed as follows:
(i) PacifiCorp and [NAME] shall develop a plan designed to accomplish the necessary work in a manner that will avoid reoccurrence of the Unscheduled Shutdown.

(ii) Such work plan shall provide that such work may, at PacifiCorp’s election:

(1) be rescheduled to begin within, and end not less than five (5) hours before the end of, a subsequent Off-Peak Hourly Periods, during which Unit 1 may continue to operate; or

(2) PacifiCorp may elect to schedule a shutdown of Unit 1 during any subsequent Off-Peak Hourly Periods and such work may be performed during such shutdown beginning within, and ending no less than two (2) hours before the end of, such Off-Peak Hourly Periods.

(e) PacifiCorp shall provide [NAME] with not less than eight (8) hours’ advance notice (to be confirmed in writing) of any election to schedule a shutdown of Unit 1 pursuant to Section 5.2(d)(ii)(2).

(f) Nothing in this Article V is intended to be nor shall operate as a limitation on PacifiCorp’s right or ability to recover damages from [NAME] pursuant to the [APSA/EPC CONTRACT], this Agreement or otherwise at law or in equity.
