Re: **Recommendation—Acknowledgement, RMP Solar Photovoltaic Incentive Program (Schedule No. 107) Errata Annual Report for Program Year 2012.**

Docket No. 07-035-T14, Rocky Mountain Power's Solar Photovoltaic Incentive Program (Schedule No. 107) Errata Annual Report for Program Year 2012, DPU's Review and Recommendation - Acknowledgement

RECOMMENDATION (ACKNOWLEDGEMENT)

The Division of Public Utilities (Division) recommends that the Utah Public Service Commission (Commission) acknowledge the errata annual report for the 2012 program year for the Solar Photovoltaic Incentive Program offered through Schedule 107. The errata annual report for the 2012 program year meets the Commission's reporting requirement for the program.

ISSUE

In its April 29, 2013 Order in Docket No. 07-035-T14, the Commission ordered Rocky Mountain Power (Company) to provide an errata annual report of the Utah Solar Photovoltaic Incentive Program (Schedule 107) regarding the issues identified by the Office. The Commission directed

that this report shall present information on completed projects, program expenditures, and recommendations for the following year.

In compliance with the Commission's Order in Docket No. 07-035-T14, on May 17, 2013 the Company filed its 2012 Solar Photovoltaic Incentive Program Errata Annual Report. On May 17, 2013 the Commission issued an Action Request to the Division for a review of the Utah Solar Incentive Program 2012 Errata Annual Report. This memorandum is in response to the Commission's Action Request.

DISCUSSION

The Office identified two issues regarding the original Annual Report. A date on page 4 was incorrect. Also the sum totals form Appendix 1 did not add up correctly. The company filed an erratum for the 2012 report and after review; the Division finds the issues have been corrected.

CONCLUSION

The Division recommends that the Commission acknowledge the errata annual report for the 2012 program year for the Solar Photovoltaic Incentive Program (offered through Schedule 107), meets the Commission's reporting requirement for the program.
