Salt Lake City, UT 84114

Subject: Docket No. 07-035-T14, *Three-year assessment of Solar Incentive Program*

To Whom It May Concern:

Thank you for the opportunity to comment on Docket No. 07-035-T14, *Three-year assessment of Solar Incentive Program*. The Utah State Energy Program wishes to share information gathered through the administration of a very similar program, the Utah Renewable Energy Rebate Program. The Utah Renewable Energy Rebate Program was launched on April 19, 2010 with a budget of \$3,000,000. The program will process over 350 applications, 216 of these applications involve solar photovoltaic systems from residential and commercial applicants. This program is being administered for five percent of the program budget. Based on this experience, the Utah State Energy Program believes the program results reflected in Table 4 – Results at 5% Program Deliver and Administration Cost, accurately represent the program costs for a solar incentive program of this scale.

Sincerely,

Chris Tallackson, Manager  
Utah State Energy Program
