**Statement of Fact:**

I hereby declare that I did knowingly and willfully perform the electrical work at the location set forth above and/or inspected the electrical facilities and swear that the electrical facilities meet or exceed the requirements for such electrical facilities as required by the current edition of the National Electrical Code (NEC) and Mt. Wheeler Power's requirements prior to energization. By signing this form I am declaring the information in this form to be correct and requesting that this location be energized by Mt. Wheeler Power, Inc. Electrical facilities are defined as the mast conduit and conductor, meter panel & disconnect and grounding for overhead installations and a free standing pedestal or a panel on the exterior of the structure (meter panel & disconnect and grounding) for underground installations.
