Subject: Docket 08-035-38 Request to Intervene

Roger, Since I am already sending you emails tonight, I thought we should discuss your intervention in the general rate case for which Rocky Mountain Power has given notice of intent to file "on or soon after June 6, 2008." Since Rocky Mountain Power has yet to file the proposed rate case with the PSC and no adjudicative proceeding has commenced pursuant to Utah Code 63-46b-3, the PSC will not act on your request to intervene until the adjudicative proceeding has commenced. Once the proceedings have commenced, with the filing of Rocky Mountain Power's request for agency action, the PSC will act on your request to intervene pursuant to Utah Administrative Rule R746-100-4.D. If you have any additional questions, please let me know. Thanks.
JPO
