Dear Commissioners

Thank you for representing my interests with (i.e. against) the power company. I will not be coming to the meeting to-day, but wish to enter an opinion. There is no way I understand all of what Roger Ball wrote Sunday about the reasonable price of my electricity in the months to come, but I'm sure you can look into all that. Then I have to trust you to do the best you can for me. It is obvious that the power company is not the right group to make that decision. They are a monopoly and it is up to you to decide what is fair.

Good luck

Thank you for your work,

Betty Chamberlin
