**RE: Rocky Mountain Request for Another Rate Increase**

**With our economy being in its present condition –plants closing down, people losing their jobs, people losing their homes, children homeless, more people depending on the Food Banks to feed their family- I do not believe this is the time for another rate increase.**

**I believe Rocky Mountain Power should think of ways to trim within- maybe some of the high paid executives could give a little – every little bit helps- especially in times such as this. People just do not have the money to give.**

**Rocky Mountain Power is a great company but please no rate increase at this time.**

**Thank you.**
